KINSTON YOUTH BREAKS NECK, HE STILL LIVES

Kinston, May 7.—Arthur House, 18, who broke his neck by diving into a submerged log in swimming a few days ago, was still alive today. Silent surgeons in a local hospital declined to predict the result of an operation on the boy. A fractured cervical vertebra was held together with wire. The patient was conscious and had the use of parts of his body. Members of the hospital staff said they were "hopeful."

STUDEBAKER LIGHT-SIX SEDAN \$1550

—But You Can't Ride on the Paint!

Imitation diamonds can be made to look so real and sparkle so brightly that it is difficult to tell them from the genuine. But try to sell one and you will find out its real worth in a flash. Same with automobiles. Weaknesses of construction in a closed car can be hidden, for a time, with paint and varnish and fancy fittings. But all is not quality that glitters. You can't ride on the paint. And when you place such a car on the second hand market, you suffer a heavy depreciation because it lacks real intrinsic value at the outset. Use will never improve a mediocre product. The second hand floor is the melting pot for automobile values. Cars are stripped of artificial values and only inherent worth counts. Motor car owners tell us that the real value of any Studebaker car at the end of three or four years of useful life is greater than on any other car built today—the percentage of depreciation is the lowest.

No wonder the Studebaker Light-Six Sedan is the fastest-selling quality Sedan in the world!

The name Studebaker stands for quality, durability, comfort and integrity.

Four wide-opening doors. Eight-day block. Quick-action coil ventilator. Attractive coach interior. Heater. Mohair velvet upholstery. Glove-proof floor and windshield cleaner. Power light. Thief-proof transmission lock.
