WITH EVERY ELECTRIC RANGE PURCHASED DURING THE NEXT 4 WEEKS

A new Day has dawned for women. The Westinghouse Automatic Electric Range is solving many of the household problem, that have always confronted her. The question of obtaining servants is no more a worty, because the almost human intelligence of the automatic temperature control permits her to take part in and enjoy the many new and broadening outside influences, yet at the same time gives her a silent electric servant.

Automatic Cooking means household efficiency-it means cooking food with a more delicious flavor, with a minimum of effort and without constant supervision. The many savings possible by the use of an automatic electric range, combined with the new comparatively low cost of electricity for cooking, mean kitchen economy.

These are positive, demonstraple facts. Ask us for a demonstration.

\$5.00 Down and \$5.00 per month will install one of these ranges in your kitchen.
