Ling the public circulation or postable means as New Orleans, June 3.-Tradi the preceding week, while at e lowest they were 176 to 190 ints under the range being 201-226 points. The close was 122 points net lower on the ell off to 25.61, finally clos ing at 26.14; October rose to 24.45 fell off to 22.19 and closed at

late in the week. While this comerage for May 25th, it also compered with 60.6 as the condition r year ago, and it was somewhat above the average of expectations and well above some estimates of the long side, private conditions reports ranging as low as 67.0 per

The effect of the condition figures was heightened by the return toward the end of the week, of dry weather to the eastern belt, by less rainfall in Arkansas and Oklahoma. and by showers over some sections of Texas, the only stated helt to really need rain. This coming week the weather will probably almost wholly dominate the market and containe of Texas, hot and dry weather would result in selling while further abovers would result in buying. Showers over Texas would be considered highly favor able and probably would have more effect on values than would continued dry weather, for, with dry weather, Texas, according to private accounts, is putting its erop in a state of high cultivation.
