versed as compared with a week ago, when the tendency was to buy nearby and sell futures. With the decline in values, bears appear to be gaining confidence in ultimate lower prices for the whole list, being aided by extreme weakness in stocks and declining tendency in practically all other commodities.

More Royal Clinchers for 1923
United States Tires are Good Tires
THE U. S. Tire people took plenty of time in developing the Royal Clincher Cord. Where it was finally placed on sale there were no mistakes at it. Last year we couldn't make Royal Clinchers fast enough. Production for 1923 has been more than doubled. Whenever and wherever you can get a Royal Clincher—take it.

Fine library building to be ready during the fall term. New dormitory for boys ready September 1. Electric lights and swimming pool. The Experience the finer Christian atmosphere to be found. For catalogue, apply to J. A. CAMPBELL, Principal BUIE'S CREEK, N. C.

PAYING BY CHECK
Is the business-like way. The use of checks will save you a great deal of trouble in making change and eliminate the risk of keeping much money around the house or on your person. You can write out the exact amount necessary to pay any item. At the end of the month this bank makes up a statement showing deposits made and checks drawn serving as a complete record of your transaction—a booklet for that comes you nothing. Your checks are returned to you cancelled after each month has passed. They are receipts for the amount paid and you need no others. Should a check be stolen or lost you may stop payment, which is impossible with currency. There are many advantages in paying by check but we will repeat one more—it is the business-like way of paying your bills.

Edward and "Ty Cobb" Thomas and Fenton Adkins, of Durham, were visitors here Monday. C. B. Godfrey and E. C. Anderson spent Sunday with relatives in Durham. Ralston McDonald and Donahue McGill spent Sunday in Raleigh. Mr. and Mrs. T. V. Brannock and children spent the past weekend at White Lake. After a very hectic game, which abounded in misplays on both sides, Duke defeated the Durham City League of the Raleigh City league, here last Saturday by the count of 4 to 3. Fairley, the local hurler, pitched a nobby game of ball, allowing the "Pen-Pushers" but six hits, and whiffing ten of them. Carter, of the visitors, also pitched a splendid game, especially in the pinches. Sewell and Norris led the hitting for Duke, securing two bingles apiece. Edwards and led with the willow for the clerks. It seems to be the consensus of opinion among the fans here that the Clerks have one of the best teams in the Raleigh City league, and four of the eight teams of that league have performed here on the local diamond thus far. Frank Smith, local negro, died Saturday in a Fayetteville hospital, from the effects of a pistol wound inflicted by his father-in-law, Jas. Covington, also of this place. Covington was arrested late Saturday afternoon by Deputy sheriff A. H. Harper, of Duke, upon receipt of news of Smith's death. He was given a preliminary hearing in Dunn Saturday night before Recorder M. M. Jernigan, and was bound over to Superior court on a charge of murder. The negro is at liberty under a \$1,000 bond. According to reports, the dead negro was shot after he had fired at the defendant twice in the attempt to kill him. Smith had sworn to kill the entire Covington family, because his wife had left him on account of ill-treatment, and had sought refuge with her father. Both Smith and Covington had attended the practice session of the local negro band at the colored school house just out of Duke, and when Covington left for his home, Smith followed him with taunts and jeers. Covington, who is a peaceable man, took no notice of his erstwhile son-in-law's threats, and was continuing home when Smith opened fire and shot at him twice, before Covington fired. It is said.

Birthday Celebrated
Mr. Sample Holly, who lives near Duke, Sunday celebrated his seventy-fifth birthday, which is June 26th. All his children, twenty-four grandchildren, and four great-grandchildren, gathered at Mr. Holly's home for the occasion. A large number of other relatives and friends were also present and were glad to show their love and friendly feelings toward the good brother at this time. Upon a special request of Mr. Holly, Mr. M. Whittenton, Moderator of the Cape Fear Free-Will Baptist union meeting, delivered an address suitable to the occasion. Following the address prayer was offered by the speaker. Then a bountiful repast of good things to eat was served at the noon hour.

When bird is killed, bugs rejoice. Afternoon, Rev. C. E. Johnson, of Blon, preached an excellent sermon which made the occasion unique. His text was Mark 1:1: "Be therefore followers of God, as of children."

HAS READ BIBLE THROUGH ONE HUNDRED TIMES
(Montre Journal.)
For a man to make the study of the Bible the hobby of his life seems somewhat unusual to the average person, but not so with Mr. Isaac Wilson Haigler, of Goose Creek township. Mr. Haigler, beginning after his marriage at the age of 30, has read, he says, through the entire Bible over one hundred times. The story of Mr. Haigler's life is not at all a rosy dream. At the tender age of six he was left without father and mother to the world of chance. Later on young manhood found him a hired hand, but fortunately a Christian home where he was able to study and pray was observed twice daily. When he began reading the Holy Writ he started without education having only begun to learn his A B C's when his father and mother died. "Starting with the first chapter of St. Matthew, I pronounced word after word, going over it again and again until I had memorized the entire chapter. Then I proceeded to read the succeeding chapters, but with considerably more ease. It was a delight to me. Now I have worn out two reference Bibles." Thus Mr. Haigler summarizes the story of how he became and has remained a student of the Good Book, which ought to be an inspiration to all. It is easy to find Mr. Haigler with his Bible on the Sabbath, though he is at the ripe old age of 75. He is a laboring man, too, until yet, having helped in the crop and the harvest this year. "I cut what I did last Monday," he said Sunday morning.

THIS STATE RECEIVES INCREASED ALLOTMENT
Mr. Albert A. Cox, of Raleigh, N. C. State Aide to the Secretary of War for procurement of candidates for Citizens' Military Training Camps has received the following wire from Mr. Clarke Howell, Jr., of Atlanta, Georgia, who is the Corps Area Aide to the Secretary of War: "Additional quota assigned Southern State of six hundred by War Department for Citizens' Military Training Camps. Three hundred more qualified applications needed from our State before July 10th. Please give all additional publicity possible through newspapers and local presentatives. The old Southern states lead the country, let's show War Department we can produce the needed applicants." The above wire means that in addition to the three hundred vacancies mentioned there is room for 250 more men from North Carolina at these training camps, making a total of 550 vacancies in all in this State. North Carolina, though second in population among the eight Southern States, is very close to the top as regards procurement of candidates for these camps. Application blanks and information can be obtained from Mr. Albert Cox, Raleigh, N. C. When bird is killed, bugs rejoice.

With June Comes Hot Weather
This is a state of affairs which no cotton man can regard without a feeling of fear as to the result of their business for the coming season. It may be that the weather for the balance of the season will bring the crop back, but it will be an extraordinary fact if it does. It did so in 1914, that is once in about ten years; the 1920 crop turned out to be larger than anticipated in the month of June, but that crop improved during the month of June. As for speculation for an advance on bad crop news, it does not exist owing to the sentiment throughout the country against adventure of any kind and investment buying is lacking because of the same doubt as to the ability to distribute cotton goods at the present high level of prices. or her, opinion. Nevertheless, we must raise more cotton than at present seems probable, or else the use of cotton in many lines of industry will have to be curtailed to piece out the present profitable crop of America. COTTON SEEDS ON. The feature during the week has been the heavy selling of July oil by one large independent refiner, resulting in a considerable narrowing of differences between nearby options and new crop months. This condition has been practically reversed as compared with a week ago, when the tendency was to buy nearby and sell futures. With the decline in values, bears appear to be gaining confidence in ultimate lower prices for the whole list, being aided by extreme weakness in stocks and declining tendency in practically all other commodities. We see nothing in the situation at the moment to warrant advances proving anything but temporary. THURBARD BROS. & CO.

Cow Chow, The Leading Dairy Feed Of Today
The figures below are absolute facts, given by Mr. W. R. Jackson. On June 23, 1923, he milked twenty-two and one-half pounds of milk from eight head of cows, and only used 120 pounds of Cow Chow at a cost of \$4.00, and \$1.50 worth of rough feed, making a total cost of \$5.50. He sold the milk at an average of 55 cents per gallon, amounting to \$15.13, which netted him \$9.63 above cost of feeding. Do you consider this expensive feeding with such results? Of course Mr. Jackson nor no other dairyman would average this the year round, but he, at all times, is well pleased with results obtained from this feed. When you consider the wonderful results people are getting from Cow Chow, Pig Chow and Poultry Chows, why not buy it yourself when in need of feeds? It pays to buy the best.
