College Education Would Be Easier To All If Thrift Was Practiced

Among the many convincing arguments, that is always being presented, in favor of thrift and systematic saving of a part of the income, one is seen or heard occasionally that is not only logical and reasonable but also appeals to the sentimental side of a person.

Eugene Lee, Secretary of the Home Building & Loan Association, offers a savings proposition that appeals to the parents of the community and presents to them a practical and unique solution of the problem of providing for the educational training which is the inalienable right of every child.

Mr. Lee's proposal is as follows: "Subsacpe for ten shares of building and loan stock—taking it out in the child's name. This will cost \$2.50 each week. If the child is six years of age or under, by the time he becomes of college age the stock will have a cash value of \$2,000.00 or more, which will be available as an educational fund—to be used as needed without disturbing any other financial resources nor need there be any necessity for drawing on the regular income of the family. As this fund is growing by the weekly payments it will also earn six per cent or more in dividends and is non-taxable, absolutely safe and secure."

The touch of sentiment mixed with sound reasoning makes the proposition appealing to the parent and suggests an easy and sensible way to provide for the education of his child and more properly fit him to carry on life's struggle for success.

Unusual Picture Coming To Opera House Here Thursday, August 23rd.

On Thursday, August 23rd, the people of Dunn and vicinity will be given an opportunity to witness one of the screen productions ever created.

Arrangements have been made to have the motion picture production, "THE LIFE OF CHRIST" presented at the Dunn Opera House Thursday, August 23rd 8 P. M.

This is one of the most celebrated productions appearing on the screen and is highly regarded by the public everywhere. It is based on the famous Oberammergau rendition of the Passion Play and portrays beautifully and impressively the entire life of Christ, beginning with the annunciation and continuing through the scriptures in every respect.

Great good can be derived from this photoplay and the impression created is everlasting. A thing seen is remembered usually, where often forgotten if heard only.

The production comes to Dunn highly endorsed and recommended by pastors of various denominations, educators and civic leaders and special attention is called to the fact that it is in no way denominational.

"THE LIFE OF CHRIST" has been engaged through the Chicora Chapter of the U. D. C. from a company of Atlanta, Ga. Incidentally, the equipment of this company is first-class, consisting of two motor-driven machines, standard size screen, a direct electric generating plant and an experienced operator.

This is an entirely different type of motion picture and the public is urged to support it.

It has been presented at Monroe, Hamlet, Laurinburg, Maxton and several other cities in this vicinity and according to endorsements has drawn large, appreciative audiences.

Although the Locals lost Saturday to the Fifth Field Artillery of Fort Bragg, by the score of 2 to 0, they pulled a triple play in the ninth cannot that swept the base out clean. Runners were on first and second and the next batter hit a hot one to Fahey in the pitcher's box, who quickly threw the sphere to McLamb at third cutting off the runner there and McLamb whipped the agate to A. Woolworth at first before the batter could negotiate the distance between home and first, and the other runner who had been on first essayed to go from first to third and was cut down when Woodworth threw the pellet across the diamond to McLamb the hot corner guardian. The game was

among one of the best played here this season. And the triple was the first such play ever pulled in Duke according to the memory of old-timers here.
