COUNTY TEACHERS HOLD MEETING AT THE COUNTY SEAT

Gathering On Last Saturday Was Addressed By Several Speakers

ORGANIZE UNIT OF N. C. T. ASSOCIATION

Prof. T. T. Linear Elected Presdent And Miss ame F. Camp Named As Secretary-Dr. Phillips, Prof. Campbell, Jule B. Warren Address The Teachers of Harnett County.

(By B. D. Bunn)

The county-wide teachers' meet ing was held in Lillington Octobe. Superintendent D. P. Centry presiding. After a short talk by the superintendent there were many interesting and inspiring speeches by different men of prominence in the county.

Dr. Phillip, county health officer was recognized and delivered an advisory speech to the teachers and committeemen relative to communication cable diseases. He stressed the prin that both teacher and patrons should be very careful relative to the spreading of these diseases curing the school year, especially. By all means, when a child is suspected to have any contageous disease, a physician should be consulted.

The next on programme was address by Dr. J. A. Campbell of Buie's Creek. In the first place Mr. Campbell said, "know the pupil and know the home, as far a possible." It is the privilege of the teacher to understand every boy and girl from a standpoint of their environment. When a child is not provided for study hours at homeit is the teacher's opportunity to provide study for him at school

In the second place, the teache must not only think of the intellectual side. Some pupils may not be as keen to learn as you were. They may be a poorer intellectually on account of the physical conditions. In order to do his best work a child must have a strong house (physique) in which to work. It always behooves the teacher to encourage and not discourage.

Then by no means the least comes the spiritual side of the pu pils life. It is very evident that they will live beyond one world so di not forget to point them daily t. the life to come. The most import and of all things is Christianity. In the first place, the teacher herself and himself should live the fered, Bennett was "trying out" a

Just because he is friend of mine or a friend of my friend is no reason why any person should be shown a preference All lines of friendship should be ignored. It should be a body in progress for education and educations principles in a community leading to Christian citizenship. Dealing with the child should be a relationship only to progress. Never should there be any discriminations among pupils, teachers, patrons or fellowworkers. Do the thing with a conscious free spirit.

There should be a spirit of understanding, comradeship, between teacher and committeemen. Always be free spoken one to the other.
