mate that makes the growing of practically all crops known to the South possible.

"Thanksgiving Dance" From The Carolina Banner we learn that Sanford is to have "Thanksgiving dance." After reading the proclamations of President Coolidge and Governor Morrison. urging the people of the nation and the State to observe Thanksgiving Day by meeting at the church of one's choice to return thanks for the blessings of the past year, the announcement of a "Thanksgiving dance" attracted us. It moves us to wonder just what sort of a dance Thanksgiving dance" will be. To say the least, staging a

dance of the kind that is popu-lar now-a-days, would be a shining poor way of returning thanks. And even if the dance thanks. And even if the dance must be, then surely another name could have been chosen for this particular assembly of those who find pleasure in the pastime. "Thanksgiving dance" may be all right and proper, but we don't like the name.

The Safe Program Again we would warn of the inger of the present price of the leading the farmers and siness men into taking too eat a chance with the boll evil next year. It should be nembered that this year was of the most favorable ever own for growing a cotton p under boll weevil condi-m. This being true, the far-te generally successed in ducing an "average grop." an "average cro the favorable from
