

When you spend a dollar not only does the dollar itself pass away from you but also the interest that it would bring from year to year, says Dr. Clarence Poe, chairman of the Board of trustees of the State College of Agriculture.

There are now fifteen creameries in operation in North Carolina. In 1920 only 989,713 pounds of butter was manufactured; in 1921 this amount had grown to 1,345,628 pounds, in 1912 a total of 1,480,944 pounds was manufactured. This agricultural activity has been promoted and fostered by the dairy extension specialists of the State College and Department of Agriculture.

Tom Tarheel says he is going to plant his crops this next season with the idea that the boll weevil will hurt his cotton. If the season is favorable to the pest then the other crops will produce food, feed and some money.
