HOG PRODUCTION.

Since there is misunderstanding on the part of some farmers in this locality as to the usefulness of the information as to hog production and crop acreages, obtained from the cards distributed by the rural mail carriers, Postmaster T. L. Green has requested the Waynesville Mountaineer to publish the following statement furnished him by the United States Department of Agriculture.

These surveys are made with the help of the rural carriers, who either distribute the cards to a certain number of farmers along their routes, with the request that these be filled out, or the carrier fills out the card himself by interviewing the farmer. The carrier is instructed to get information from farms which will give a good average picture or sample of farms on his route, preferably by talking all of the farms along a part of his route, big and little, good and poor, owned and re bed.

If a fair sample of all farms is returned in each state, figures for these farms should show the same changes as all farms. It is impossible to take an actual census enumeration of all farms each year, so changes in production and acreage each year must be estimated from samples. The nearer these samples are to being exact, the more correct will be the estimates.

The need and value of such information for individual farmers and agriculture in general hardly need be stressed. Without dependable information as to actual production and trends of production both of livestock and crops more balanced production and better market distribution are impossible.

The Department of Agriculture is the best qualified agency to undertake such work, but the accuracy of its estimates depends upon the accuracy of the returns made by farmers.

The beneficial effects that such information may have upon price is shown by the level of hog prices during the winter of 1924-25 compared to the previous winter. The big surveys of June and December, 1924 showed a decided decrease in hog production in 1924 compared to 1923. Marketings, however, during the winter from the 1924 crop were almost as large as the previous winter, and in December and January were the highest on record. In spite of these heavy marketings, hog prices were \$2.00 to \$3.00 per hundred higher than during the winter before. The heavy marketings were rightly interpreted as being an early marketing of a smaller number of hogs caused by a short corn crop and not as indicating a correspondingly larger number of hogs.

But unless these estimates can be kept dependable the trade will disregard them and will be guided either by private estimates or by actual marketings as these take place. Therefore, every farmer should help to make these reports accurate by making the report for his own farm complete and accurate.

PAINS ALL OVER

Lady Says She Took Cardui and Never Saw Such Improvement—Was So Weak Couldn't Stand.

Weatherby, Miss.—Mrs. James M. Hall, of this place, writes that she was "getting weaker all the time" when Cardui, the woman's tonic, was first brought to her attention. After she had taken Cardui a while, she writes that she "never did see such an improvement."

"I suffered all the time and had pains all over," says Mrs. Hall. "I was so weak I could not stand. My skin was cold and flabby. I did not have any color. I had always been a very active woman—used to outdoor exercise, walking and going where I pleased, and to get down, not able to rest myself a drink, was indeed a hardship."

"Nothing seemed to help me, till I began on Cardui. The first bottle seemed to strengthen me, and I sent for five more. By the time I had taken these, I was on my feet, going around, doing my work, gained in health and strength."

"I took two more bottles, and I am well and strong. Can work my garden. I haven't had any more sickness."

18 Dec of E. J. Howell, Deceased.

THIS HAPPENED IN HAYWOOD COUNTY.

A young man married a young lady who was his cousin. Later his sister married his wife's brother, also a cousin—still later his mother died and his father married yet another sister in the same family who were cousins by marriage. Thus he became a step-son to his sister-in-law and a brother-in-law to his father. A son was born to his father, who in his turn became a step brother to his half brother's children, the uncle of his half brother's children, and his wife's nephew.

The young man's father was grandfather to his brother-in-law's children, and also their uncle. His wife was the daughter-in-law of her sister, and the sister-in-law of her sister, and sister-in-law was the aunt the step grandmother to the children of her brother-in-law. In addition they were all cousins to each other, and the children were little short of being double first cousins to themselves.
