THE CHANGING NEAR EAST

Field Director of the Near East Relief

The observance in December of Golden Rule Sunday on behalf of the overseas work of the Near East Relief, as appresent by President Coolidge, calls again to public attention the importance and significance of this humanitarian enterprise. In the current number of the Review of Reviews, Mr. Mace reviews what America has done for the people of Bible Lands. This extract is given by special permission

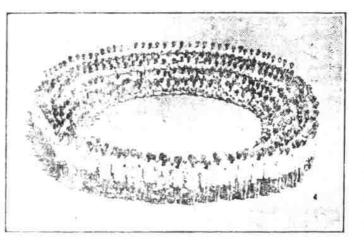

are not what they seem nor as you expect them to be. Everything that the Ameri-

ean thinks he knows about the Near Jun 21.1 East turns out to be different when he note delibbe to the American mindcon throne three years ago,

HE Near East is a true topsy- | Asia Minor, although it meant the herculean hazard of absorbing a million new inhabitants into a population of five millions on a limited and thin-

soffed area. It was a task and risk from which the strongest and richest nation on gots there. For example, nothing is earth might excusably have shrunk. Huge borrowings and desperate expethan the well-established fact that and choker this horde of fugitives. Timesy achieved a tropendous vie Inevitably there was great loss of life only the strongest survived. But to with the training of the day that undesired immigration is fast

Indeputation is condency. In all, the proving an asset to Greece. It brought visit the Near Fast and what is your thrifty, enterprising people the sort associates. There you reduce that especially that had made Smyrna the Greece loks vastly more like a vice richest city of its size on earth-a for now then Turkey

Shabby Constantinople

The Tork holds Constantinople, of course by virtue of scatting Europe's peace negotiators when he came down to the Boophorns with the his inseyou army that had driven all Greeks, military and civil, our of Asta Minor. But there is grave question about how much clory there is in holding the bustantineple of today. looks meaner and shabbter than it ever did before. Try as one will to wish well to the modernized Turk in his professional reforms tone, one has to ack swieder that if the appearance of the city of Constantinople is any signs the Turk is still the sick man of the Orient. And he has lost Syria, Arabia, and Mesopotagila forever.

Prosperous Athens

on the other hand, in startling conthe same taken the present-day tireek by in many health. Chreece's comeback or a form is amorting. Not only to the capital and in other cities, but

uniph at Smoran, is the also were being expelled from ity for refuge on Greek soil.

and American region But Into the nation a host of clever. great army of producers and business

Athens is vibrant with energy, distinctly American in spirit. Its population has doubled since the beginning of the World War.

The pro-American feeling of Athens is not exhausted by its imitative energies, a great spring of gratitude wells out of the national heart. Greece has not forgotten that America, through the medium of the Near East Relief and other benevolent agencies, sent her inestimable assistance in money and in experienced social workers when refugees from across the Ægean three years ago were pouring in on her by hundreds of thousandssick, hungry and dying.

I took much comfort in thinking of that while I was in Athens, for there ts no satifaction deeper than in helping those who help themselves. Watching the crowd, it pleased me to reflect that some, at least, of those happy folk were among the exiles whom America had fed and helped to keep alive until they could stand on in the country districts there their own feet again. And it is pleas about the district of a sound and and to record that the Greek public authorities never let down any of their ach is happened as the direct own efforts because Americans were result of Greene's great "defeat" The there helping. They shouldered the bricken subjects, after operated besides in everything that American organizations asked; scalculable enrichment to and it should be remembered that After the fall of Smyrna the more than half of the wards of the and in in Europe, with rare Near East orphanages are Armenian "by tel faith eponed its doors children, with absolutely no claimto the refuses of Erecian except the paramount claim of human-

HOW MANY BEDS FOR TUBER-CULOSIS DO WE NEED IN NORTH CAROLINA?

The matter of the importance of sanitorium treatment for every person who has tuberculosis has ceased to be a subject for discussion. Our people in North Carolina and throughout our nation and in many other nations are unanimous on this one thing.

How long should a patient remain in sanatorium and should he be re-admitted in case the disease should become reactivated seems still to be under discussion, at least by the laity in our state. Let it be said that all persons expert in tuberculosis from the National Tuberculosis Association on down agree that every case of tuberculosis should have six months at a weil regulated sanatorium as a minimum, some interusts will not treat a case of tuberculosis until after they have had this term of training in a sanalorium. Then all cases that become re-activated would be allowed to return to the sanatorium, especally where they cannot be properly cared for in the home for one of mony rensons, or if perchance they have no home. Then all far advanced cases should be cared for in a tubervisions hospital especially if they have no home or improper home sur

How many heads of tube reulesis have we in North Carolina available for our retizene? Not more than five hundred. and how many do we need. Let me paste from the National Tuberculosis A security in Technical Series No. 2, personal by Mr. T. H. Kidner, publish Bla Deene, parte S.

It is usual to have the estimate of the number of bods that should be percented in a tuber alous sanatorium ipon the number of deaths occurring consulty from the disease in the distrut which the institution is to serve. The average number of deaths for e veral years should be used). A conervative estimate is that one bed hould be provided for each death; although it has been found in places where the field organization for antituberculosis work is thorough, and the "finding agencies" are active and regular in their work, that the proportion of beds to deaths may well be higher."

We had in North Carolina last year, according to the report of the Bureau of Vital Statistics, 2462 deaths. There for, according to the ratio set by the National Tuberculosis Association we are shy in round numbers two thousand beds, if we may hope to give out people what they need and what they are entitled to. We would have had seventy-five additional beds in each of two counties but for an error made by the last General Assembly, which of course will be corrected by the 1927 session.

It is time the state should take up this matter in earnest. The Duke foundation will in a few months be ready to pay one dollar per charity patient per day to all county and state sanutoriums.

The state sanatorium should be greatly enlarged. County sanatoriums should be erected. Perhaps another different part of the state. Might it not be well for the state to subsidize the county sanatoriums, - that is pay a part of the cost of maintenance of patients therein. A wonderful work is being done and is accomplishing more than could reasonably be expected but we need two thousand more beds.

GOLDEN RULE in PRACTICE A series of articles by prominent leaders on the Golden Rule as a guide in Inter-

NO WORK MORE WORTHY

national Relations.

By FELIX WARBURG

It has been my great privilege to see something of the Near East Relief work abroad. My outstanding Impression has been the efficiency of the Americans who are in charge. Of all the charmable and humanitarian work abroad during and since the war I am sure this is easily the leader in the quality of its personnel. Their own modesty prevents them from saying what they are and from singing their own praises. So I may say for them that they are worthy of being entrust ed with our funds.

I have seen in Athens the heauty of the Acropolis and the horrors of the terugee camps. I have seen the Royal Theatre with its horde of refugees. I have seen also the patient workers, who are willing to live in a mud willage which 10,000 refugees have built for themselves right in the center of Athens Mud is the floor, mud is the wall, and muddy are the garments of dwellers in this pathetic refugee town.

To live under these conditions, with sickness and indescribable misery, takes a spirit of devotion that you can find only in the Near East. These Americans who have done this work; for us deserve our heartlest applause.

this: Cooperate with them and trust them with all you can

The work for the orphaned children needs a special word. The children in the American orphanages are thriving in a most extraordinary way. Their training is leading them for ward inevitably into a place where they will be the leaders of their peo-

I have seen them in Palestine as well as in Athens and Constantinopte, and all I can say is for general support.

BILIOUS ATTACKS

Tutt's Pills

Tone and strengthen the weak Stomach, Bowels, Kidneys, and Bladder.

COR OLD AND YOUNG Tutt's Liver Pills act as kindly on the delicate female or infirm old age as upon the vigorous man.

From Which Kentucky Man Suffered Two or Three Times a Month, Relieved by Black-Draught.

Lawrenceburg, Ky .- Mr. J. P. Nevins, a local coal dealer and farmer, about two years ago learned of the value of Thedford's Black-Draught liver medicine, and now he says:

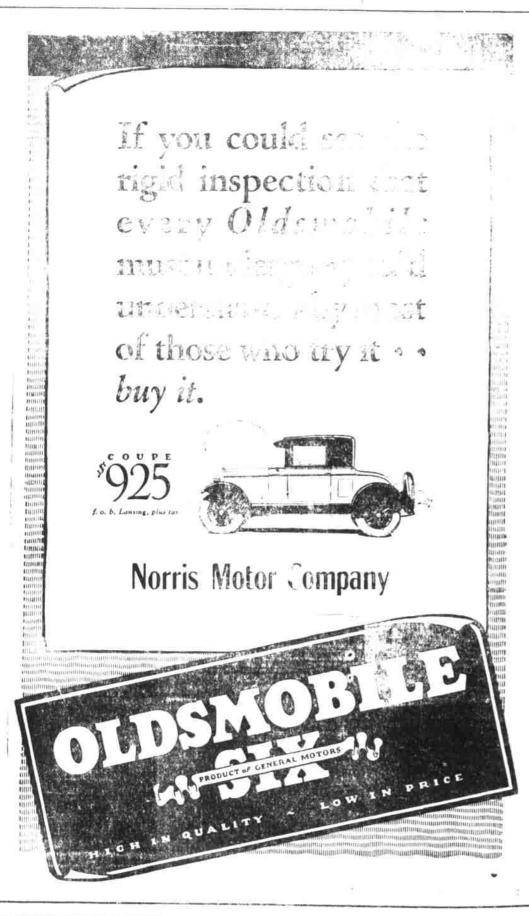

"Until then I suffered with severe bilious attacks that came on two or three times each month. I would get nauseated. I would have dizziness and couldn't work.

"I would take pills until I was worn-out with them. I didn't seem to get relief. After taking the pills my bowels would act a couple or three times, then I would be very constipated.

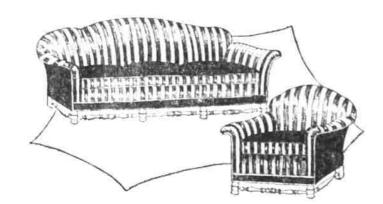

"A neighbor told me of Black-Draught and I began its use. I never have found so much relief as it gave me. I would without it for anything. would not be

"It seemed to cleanse my whole system and make me feel like new, would take a few doses-get rid of the bile and have my usual clear head, feel full of 'pep' and could do twice the work."
