

Legion Listing Beauty Contest Entries Rapidly

With approximately 50 of this city's business firms already entered and their representatives selected, plans for the American Legion Beauty Pageant here on the evening of July 26 at the High School Auditorium, at 8 P. M., are progressing nicely.

Indications point to the entrance of 75 or more firms. Seldom, if ever, has more intense interest and enthusiasm been aroused than is being manifested in this Beauty Pageant by the people of this city, who are now wondering "who will be Miss Waynesville."

The winner in the event here will be awarded the title "Miss Waynesville." A silver loving cup will be presented to the young lady chosen as the most beautiful of all local entries, and she will be given a free trip to Wilmington (Wrightsville Beach) by the local Legion Post. There she will have the opportunity of competing with the representatives from over the State for the title "Miss North Carolina."

"Miss North Carolina" will receive a free trip to the World's Fair at Chicago during the National Convention of the American Legion October 2-5, 1933.

E. L. Hinton Begins 3rd Year As Health Officer For County

E. L. Hinton, who has been the county sanitary officer for the past two years, has entered upon his third year of service here, having entered Monday into a contract for the next year, ending in July, 1934.

Mr. Hinton has Bryson City added to the scope of territory he will work. His territory now will include all of Haywood county and the town of Bryson City.

Born in Gates county, he graduated from State college, Raleigh, in 1927, but returned in 1930 to take up extra work for service with the public health bureau. He became connected with the U. S. Public Health Service at Hendersonville in 1931, but resigned to come to Waynesville to become sanitary inspector for Haywood county in December, 1931, succeeding R. L. Crooke.

Mr. Hinton is now engaged in inspecting dairies, meat markets, cafes, and other institutions serving the public and expects to have his report for Haywood county ready in a few days.

Mrs. Simons is reported to have fired a 32-caliber revolver bullet into her head just above the temple, at her home here at 11:15 o'clock Monday morning. A note signed by her, said "Ill health caused me to do it."

ADJUST WHEAT ACREAGE IS NEXT FARM ACTIVITY

A reduction by 20 per cent of the acreage planted to wheat for commercial purposes in 22 North Carolina counties will be the next concern of the Agricultural Extension Service of State College.

"We have received word from the agricultural adjustment administration at Washington to make our plans for offering reduction contracts to wheat growers in those counties producing 100,000 bushels and over," says Dean I. O. Schaub, head of the extension organization. "This campaign will effect some 22 counties and it is planned to get the work under way the latter part of July. About August 10, county wheat adjustment control associations will be organized in those counties where enough farmers indicate a desire to take part in the reduction campaign."

The Dean said these county associations, made up of the cooperating wheat growers themselves, will handle the county allotments, consider individual contracts, and take care of the bulk of the local administrative work in operating the plan. These associations will be self-managed and self-financed.

Under the plans made, the farmer will get a parity price for his wheat on a basis of the pre-war price.

However, this parity will be given on wheat domestically consumed in the United States and will be for the crop years of 1933-1934 and 1935. The grower first joins his county wheat control association. The association then gives him his allotment in bushels based on his average past production. This allotment, figured in bushels, will be that percentage of his average production which corresponds with the percentage of the whole American crop used for domestic consumption.

Iron Duff Farmer Finds New Land Is Fine For Potatoes

H. L. Brown Finds Potato That Weighs One Pound Eleven Ounces

H. L. Brown of the Iron Duff community brought to The Mountaineer last week an Irish potato of the Spalding Rose variety that had taken on its second growth until it weighed one pound and eleven ounces. The peculiar feature of the potato was that it looked as if several smaller potatoes had started to grow from the large one, but a close observation revealed that there was only one potato which seemed to try to over do itself.

Mr. Brown planted 13 bushels this year and the patch from where the large potato was found was in new land by the river. No fertilizer was used whatever, Mr. Brown stated. He and his step son, Oral Yates, planted the crop and expect to get about 170 bushels from the 13 bushels of seed.

The seed used has been kept certified for the past three years. The crops in the Iron Duff section were reported by Mr. Brown to be generally fair. The corn is above average and an average crop of tobacco.

Just how many more large potatoes will be found in the patch planted in new ground is not known, but a large yield is expected.

Haywood Youth Shoots At Two, Then Kills Self

(Continued from page 1)

Another couple, Walter Jones and Mrs. Grace Treadway, sister of Mrs. West, were holding a conversation on the school house steps out of line with the shotgun charge and escaped unharmed, they testified. All witnesses corroborated each other. Mrs. West said that she had been separated from her husband for more than four months.

Mrs. West had previously told officers that her husband had mistreated her from time to time and that she had been living with her parents. Mr. and Mrs. John Ramsey, who reside near the Rickman store in that community.

ANNUAL B. Y. P. U. CONVENTION

The annual meeting of the Haywood B. Y. P. U. Association will be held at West Canton Baptist church Saturday, July 29, beginning at 10:00 o'clock. It will be an all day meeting with dinner served by the ladies of the church. A splendid program is being planned. All the B. Y. P. U.'s of the county are urged to be present. All the pastors are urged to attend and representatives from churches who do not have unions.

behind him and caught him about the shoulders. He said that he drew his pistol and fired twice into the ground to force the two men to turn him loose. He said a struggle then took place, during which a pistol fired three shots, but he did not fire them, and does not know who did. He said that he did not know that Chambers was an officer.

Solicitor Queen cross examined the prisoner. Jenkins could not identify the pistol that was shown him on the stand as his, said he did not know whose pistol it was, had bought some cartridges from Harrell a few days before, admitted that he had made liquor and that Harrell had hauled a still to his place one night, that he had made liquor regularly until the officers found his still and had cut it up, acknowledged to have bought liquor afterwards from Kay Woody on Big Creek. He denied threatening to shoot Chambers and Harrell as had been testified by the State's witnesses.

He denied that he voted for Chambers for constable, but said that Marshall Messer had voted him in the last election, and he was not told who he was voting for.

Jenkins was directly contradicted by State's witnesses. John Howell, J. B. Leatherwood, Ernest Duncan, Will Long, and probably two or three others.

Testimony was all in by Tuesday afternoon at three o'clock, and the arguments began. Grove, C. Davis, and Lee Davis, of counsel assisting the solicitor, spoke Tuesday afternoon, and Alvin Ward and J. R. Morgan, of counsel for the defense, also spoke Tuesday. M. G. Stamey, and George H. Ward closed for the defense Wednesday, and John M. Queen closed for the State.

... NO TIME TO WAIT—

SOMEONE is ill... get the doctor at once—no time to wait... that is when you want a telephone.

You want to talk with a friend across town or in another city—and that is when the telephone serves you well.

After all, life is made up of major and lesser incidents like these—when you need to speak to someone, or they want to call you.

If you try to determine the value of telephone service, a good way it might be measured is by its protection in emergencies when a swift summons must be sent to the doctor, the police, the fire department. Or its value may be summed up in the many little errands it runs for you every day.

But whatever the yardstick, most folks agree the value of telephone service is so great and the cost so reasonable that it really doesn't pay to try to do without it.
