Trained Caddies

**T**HE Course is 6,348 yards long, and its 18 holes have par 71. Well kept greens please even the most exacting players—The skilled professional gives expert instructions. Some unexpected hazzards and baffling traps makes playing exciting. The first nine holes are laid out on rolling ground, with the second nine among the hills, making them sporty enough for the best of golfers. Hundreds of dollars spent on course during the winter.
