Jimmy—"I bet Bobby Smith 19 cents you could lick his dad in 15 minutes, with one hand tied behind you. So be sure to keep Saturday afternoon open."

Contract Let For 5 Miles On No. 284 In Transylvania

Surveying Crew On This Side Of Mountain Nearing Completion Of Task

The contract was let on the seventh by the state highway and public works commission for building approximately five miles of road on route 284 between Looking Glass Creek towards Brevard. This is the first of several units which will be let shortly on the road from here to Brevard, which is a distance of about 40 miles.

Frank W. Miller stated this week that surveying crews were busy on this side of the mountain completing the survey, and that plans were to let the contract for about 5 miles of the road from the top of the mountain towards Waynesville in the near future.

The contract which was let last week will eliminate the bad stretch of road between Pisgah and Brevard.

The construction of the road let last week will be done by Blythe Brothers, of Charlotte. Their bid for the work being \$103,118. The bridges on the route will be built by Kiker and Yount, of Reidsville, at a cost of \$54,269.50. The total of both contracts being \$157,387.50.

The roadbed is to be 24 feet wide, with a stone surface of eighteen feet.

Last week, W. Vance Basic, chief engineer of the highway department, made the statement that surveys of the department are now centered in the western part of the state. He explained that several important road links in Western North Carolina were included in the 1934-35 program of the commission, but they have not been surveyed completely so as to include them in lettings. They probably will be advertised later in the summer, he explained.

"The national scenic parkway, which hung fire for so long, has held up the work in some sections, and engineers are now engaged on that project on both ends of its North Carolina terminals," he said.

Baise also named Route 284 from Brevard to Waynesville, Route 286 from Franklin to the junction with Route 10, and relocation of Route 10 from Almond to Wesser in Swain county as projects on which engineers are now working, and which will probably be included in late summer lettings.

Jordan Reports Theatre Here Is Absolutely Safe

The Waynesville Theatre resumed regular schedule Saturday afternoon after being "dark" for several days following the blaze of a week ago when a roll of film was burned.

Frank M. Jordan, deputy insurance commissioner, was here Thursday and made a thorough inspection of the building and equipment and announced it safe. The blaze made it necessary to rewire the projection booth.

Mr. Jordan said: "When the wiring is installed, the building will be absolutely safe." Mr. Jordan was accompanied on the inspection tour of the building by Henry Gaddy, local building inspector.

Mr. Jordan further stated that the blaze was not the fault of anyone, it has happened in the largest theatres in the country.

They Were Beauties, Too

Magistrate—"The policeman says that you and your wife had some words."

Accused—"I had some, sir, but I didn't get a chance to use them."—New York Journal.

Mettler—"How do you account for it that Milt Fall hasn't sold a word about the fish he caught on his last trip?"

LeLancey—"For once, he had good luck and he caught so many that he knew nobody would believe him if he told about it."

About 800 Receive Instruction From ERE Adult Schools

Commencement Exercises Are Being Held For Adults In County, Miss Brown Headed Work

One of the most worthwhile projects that has been carried forward in the county under government agencies has been the adult school work done under the ERE of which Miss Jane Brown is the county supervisor. About eight hundred adults have been taught to read and write with the women receiving special training in sewing and home making in connection with the lessons.

A schedule of the commencement exercises at which time diplomas are given those completing the work of the various groups in the county is as follows: Cecil community was held at 8 o'clock on May 15th at "The Friendly House," with Rev. H. W. Bannum as the speaker. At Clyde the exercises will be held at the Clyde high school, on May 16th, at 3 o'clock and the students will have entire charge of the program.

In Canton Prof. H. A. Hutchins will be the speaker at the exercises to be held on the 17th at the high school building at 8 o'clock. In DeLwood on the same day the group will meet in that community at Martha's Chapel.

On Saturday, May 18th, the Waynesville classes will receive their diplomas at the central elementary school. The chief speaker will be Dr. H. T. Hunter, president of the Western Carolina Teachers' College. Several of the graduates will make short talks. On May 25th the Sunburst classes will have a program that will begin at 10 o'clock in the morning and last through part of the afternoon. They will meet at the Sunburst school.

On June the 1st commencement exercises for the district which is composed of the 18 western counties will be held in Asheville. All students, their friends and those interested in adult education are urged to attend. Miss Brown requests that anyone planning to go, get in touch with her at an early date in order that transportation may be provided.

Briggs Suggests That Small Zoo Be Built In City Park

Oscar L. Briggs, who is supervising the work on the park on East street, made the statement yesterday that he was anxious to build pens and cages and have a number of animals in the park. His plans are to have a small zoo and probably a pool for fish.

Mr. Briggs stated that the addition of a small zoo would add much to the interest of the park visitors.

Plans have been made whereby the zoo could be built and not interfere with the present plans that are already underway, which will include a wading pool, hundreds of feet of winding walks, rest rooms, barbecue furnace and open-air theatre. The small street that runs through the property has already been banked with rock which makes a picturesque center for the park.

The labor is being furnished by the relief offices and Mr. Briggs is supervising the work.

Cost Of 1935 General Assembly \$170,796.30

Raleigh.—The 1935 North Carolina Saturday afternoon, cost the state general assembly which adjourned about \$170,796.30 in personal service though the entire legislative appropriation was only \$158,000, it was indicated today.

The auditor's office reported it has already issued vouchers for \$170,796.30 with a "few odds and ends" of personal service still to be added and no printing bills were included. Printing usually costs about \$25,000 a session.

The 1935 lawmakers wrote 1,345 new laws and 66 point resolutions into the statute books. In 1933 there were 1,406 new laws and 64 resolutions.

Most of the legislators had gone home today but it will be several weeks before all work in connection with the session is completed.

Stacey W. Wade, secretary of state, reported that the enrolling office under his charge cost only \$9,779.16; for personal service this session, as compared with a cost of \$16,407.85 last session and \$29,864.20 in 1931.

Farm Problems And Answers

Question: How much fruit and vegetables should be canned for each member of the family?

Answer: Each adult member of the family should have at least 37 pints of canned vegetables and 45 pints of canned fruit for use during the winter. To the canned articles should be added twelve pints of dried fruits and six pints of dried vegetables. Preserves and jam will add the required sugar or sweets to the diet and a small supply should be prepared and added to the pantry shelves.

Question: Should rose bushes be dusted or sprayed during the blooming season?

Answer: A good grade of dusting sulphur should be applied to rose bushes at weekly intervals through the entire season. We re the plants are infested with aphids or thrips, the nicotine sulphur dust should be used. This is made by thoroughly mixing twelve ounces of forty per cent nicotine sulphate solution with two pounds of hydrated lime and eight pounds of dusting sulphur. For the control of rose slugs the same solution is used with two pounds of arsenate of lead added. Where the arsenate of lead is added, one pound of dusting sulphur should be removed from the mixture.

Question: What breed of chickens is best for producing capons?

Answer: There is a heavy market demand for birds of the yellow skinned breeds which include Rhode Is-
