It is also true help you work this out? In many that the percentage of butterfat from cases the cost is very small, but the labor saved and the happiness that goes with running water in the home is greater than many other things.

Farmers continue to ask us when we are going to get rural electric lines. We do not know, but we will get electricity much sooner than otherwise if we will continually keep pushing for it. If you want electricity why not let Congressman Weaver es therein described, said know about it and also Professor D. S. Weaver, of State College. They are in a position to help us. We have told them about it, but it will having been made in the have much more effect if you farm-ers will write them. Several counties in this state are going ahead undersigned Trustee will, with their electrical programs and day of July, 1935, at this county can if we can get enough

> Our wheat crop in Haywood county has turned out to be unusually good. The out crop, like potatoes, is suffering very much from the continued dry weather. We are just wondering what grop is to follow on going to send you a notice of it, s the wheat, out, and potato land, do not full to be present. What is your cropping program? These are questions that every farmer should consider carefully. Any were held of Burley growers in Haycropping system that leaves the land poorer at the end of the year or at end of twenty-five years is a failure. In some communicies it was very good We are going ahead with our terrac- vensidering the fact that falmers ing program. We are ready to work are very busy just at this time. We with those who are determined to are very sorry that all those who save their soil for the use of the had second adjustment checks here

tainment this year. These people Medford, I. G. Sorrells have booked a botter program for Bethel (Purcon) - W. A. Moore, R. burn to see each one, this year than ever. The date is defi- A. Cathey, R.
