### Obituary

#### ARTHUR JUSTICE

On the morning of July 25, 1935, God sent His death angel to visit the home of Mr. and Mrs. Larry Justice and took their darling boy, Arthur. When the cold silent hand was laid upon him he answered the call quickly without a struggle or sigh, went out from our presence without even a goodbye.

He came as a gentle sunbeam which lingers but a while and then hides its smiling face for he blessed the home into which he came only for a few happy years and then stole silently away. Arthur was not only a darling in the home but a favorite in the whole community. He was an unusually sweet boy and to know him was to love him. Just why God in His loving way plucked this precious one from the home and community, we cannot understand, but we know He doeth all things well.

Safe in that Heavenly city his feet shall never be pierced by the cruel thorns of life's way. His heart shall never bleed and break over the sorrows of earth.

Now he is eternally safe in Heaven, there where he awaits the homecoming of the bereaved father, mother, two brothers and one sister with a number of relatives and scores of friends who deeply feel their loss.

He was laid to rest at Bethel in the presence of sorrowing relatives and friends.

We loved him, yes, we loved him. But God and angels loved him more. And they have sweetly called him to yonder shining shore. The golden gates were opened, A gentle voice said come, And farewells unspoken He calmly enters home.

We are sad within our memory. Lonely are our hearts today. For the one we loved so dearly Has forever been called away. We think of him in silence. No eyes may see us weep; But many silent tears are shed When others are asleep.

A Cousin,  
W. RUTH JUSTICE.

### Englishman Finds This Is An Ideal Section To Live

Rev. E. V. Padgett, of Nassau, Bahama Islands, told the local Rotarians, and twelve visitors, that the mountains of this section compared favorably with those of India and other eastern countries where he has lived for many years.

This is his first visit to the States having arrived on Wednesday night, accompanied by his wife and two daughters.

Rev. Mr. Padgett made the statement that when he reached the mountain area, coming up from the south, that he felt that new life had been breathed into him as he inhaled the invigorating air.

"But, what I can't understand," he said, "is why I haven't heard all about this area before, instead of having to come by chance and find out for myself."

He and his family plan to spend about two weeks here.

Ernest L. Withers had charge of Friday's program.

### Trench Silos Cut Dairy Feed Costs

The first trench silo in Brazoria County, Texas, was built on a dairy farm in 1932. J. H. Sandlin, the county agent, reported recently. In 1934, there were 75. It is estimated that in 1935 there will be in the neighborhood of 150 trench silos. These silos, he says, average 100 tons of feed each which means that approximately 30 million pounds of feed will be "canned" for the future use in this county.

At an average production of 5 tons of silage daily for 100 days, 5,000 acres of forage crops to fill these silos. Such a quantity of silage will furnish 10,000 cows a good feed of silage daily for 100 days.

Five or six dairy farms were visited recently by a group of farmers on a trench-silo tour. Each farm reported silos had cut the feed bill at least one-half. The production per cow had either been increased or held to previous levels by the use of silage.

The record is 116 free issues in 25 years, an average of less than 5 a year.

Major Brown left here just a few days ago for the celebration, after having spent almost a month in this city.
