Capacity Crowd Attend Opening Of Park Theatre

A capacity crowd attended the formal opening for The Park Theatre here on Christmas Day, and the owner, J. E. Massie, was the recipient of many congratulations, not only from those attending, but from many of the leading movie stars of the country.

Some 25 or 30 telegrams of congratulations were received from stars, including Shirley Temple, Mae West, Dick Powell, Joan Blondell and many others. Many film executives also sent in their congratulations.

The theatre was completed at a cost of over \$45,000, and is acclaimed as being one of the best in the south. The modern equipment throughout gives entertainment seldom found in towns ten times larger than Waynesville.

County Digging Out After Suffering Zero Weather

Nine-Inch Snow Fell Here Sunday. Many Pipes In Town Are Still Frozen

For the first time in 13 days, this community got some relief Wednesday after experiencing zero weather, and a blanket of snow since Sunday, December 22.

The lowest temperature of the season was on Tuesday morning when the official thermometer dropped to zero, which was only one degree lower than on the night of the 25th.

The nine-inch snow which fell here last Sunday was melting faster Wednesday than at any time since it fell, although streets still had a coating of packed ice and snow on them in places.

The main highways were cleared by Sunday night, while side roads have been cleared since. Traffic was at a minimum, and other than a few bent fenders resulting from skidding, no accidents were reported.

Efforts to make street grades with chains were futile, and a number of cars were stranded in drifts along all roads.

The stock of chains was consumed early Monday, while service stations reported a brisk sale for anti-freeze.

A number of people venturing out on the icy streets, found that walking was difficult, and many fell, but outside of bruises, no serious accidents were reported.

Busses ran late, with the drivers taking every precaution and the 10:30 train was several hours late Tuesday, while the 5:30 train was on schedule.

Dozens of families were without water, some pipes having been frozen since Christmas Day. Plumbers were working over-time in an effort to get all the calls. They reported that while many pipes were frozen solid, that but few were burst. The ground on last Saturday was frozen to a depth of 15 inches.

The official weather report for the past few days is as follows:

Date	Max	Min
26	35	4
27	19	1
28	27	11
29	30	19
30	31	15
31	27	0

The snow here this week got many people into the frame of mind of discussing the "Big Snow" of 19 years ago. The details of the "Big Snow" is that it started snowing on the 4th of December and continued for 36 hours.

At the end of the 36 hours the snow was 42 inches deep in the valley and 48 inches deep on the mountains. Just as soon as it stopped, the weather turned bitter cold.

Barns and buildings were flattened to the ground by the tremendous weight.

The last of the "Big Snow" was still on the ground on the 29th day of March, according to T. L. Green, one of the many who remember the incident.

In 1920 this section experienced a snow almost as deep as the present one, and the deepest snow prior to that in recent years was on March first, 1927, when eleven inches fell.
