

COUNTY AGENTS' COLUMN

W. D. SMITH

Now is the time to prune and spray grapes. Do not prune too severely or after the sap flow begins. Use Bordeaux at this time. You may make the Bordeaux by using 4 pounds of blue stone and 5 pounds hydrated lime in 50 gallons of water.

Have you checked up on the seed supply for this season? Good seed will go a long way towards success in your farming operations. Poor seed means failure, no matter what the other conditions are. We want to again call to your attention that good seed corn is scarce for this season. Every corn grower in Haywood county should check up on this matter at once. Much of our corn was frozen last October, thereby making it unfit for seed purposes. Again remember this, to increase tobacco acreage this year is unwise. Our potato acreage should be about the same this year as last. We expect to have the details of the new farm program at an early date.

Mr. Newinger, State Horticulturist, will be here March 5, 6, and 7. He expects to spend his time with us at this time, working on home orchard problems and truck problems. We will meet with the farmers of Iron Duff township at 9:30 March 5 at the orchard of Bob Davis. In the afternoon of the same day at 2:30 we will meet with the farmers of Waynesville township on the place of Kay Allen on Allen's Creek. If you can attend one or the other of these meetings, Friday and Saturday or the 6 and 7, are open for other parts if you want him at your place let us know at an early date.

Mr. Flemham, State Extension Dairyman, will be here March 12. We are going to make an effort to give every dairyman in Haywood county an opportunity to meet him on this trip. If you have anything in mind that you should like to have him work on, please let us know.

Mr. Rauer, State Agricultural Engineer and Mr. Coleman Dykes, TVA Agricultural Engineer, were here last week. We were working out the possibility for developing electric power from our streams, in order that our rural people may have the services of electricity. We have exerted every

means known to induce the existing power companies to serve the rural area at a reasonable rate. This they refuse to do. Our farmers are insisting and have a right to do so. That they have electric rates at a price they can pay for, and demanding that we keep after it and work it out.

PURLOIN COMPANY HELD BANQUET HERE TUES.

The Purloin Company, of the Carolinas, held a banquet on Tuesday evening for the dealers in the Waynesville and Sylva territories. The affair was staged in the dining room of the Masonic Temple. A number of talks were made, among those speaking were: T. R. Talmadge, of Asheville, O. Y. Kirkpatrick, of Charlotte, and W. J. Campbell, local representative. Forty were in attendance.

FORTY BAGS OF GOLD

There is a law, the Federal Reserve Act of 1934, which orders all gold coin withdrawn from circulation; any gold held by an unauthorized person may be seized by the government. Last week armed with this law and a search warrant, a Secret Service Squad raided New York's financial district, following a trail through half a dozen safe-deposit companies and banks until they got their quarry—forty bags of gold coin worth \$234,000. The haul was in a vault of the Central Safe Deposit Company registered under the name of Zolt Jasekowitz, address Zurich, Switzerland. He had hoisted the metal up in 1932 and had made his fortune discounting Soviet commercial paper. His attorney described him as a Lithuanian born and thus far not subject to Federal jurisdiction. However, the government has the gold. Each of the forty bags contained 250 twenty-dollar coins, making a total of 10,000 gold pieces, enough to fill a box 11 inches wide and 27 inches long and 7 inches deep.

The Treasury has no way of knowing how much gold is still hoarded. It estimates that \$279,000,000 is outstanding. This represents the difference between the total issued and the amount turned back for redemption during the whole life of the Federal

How Cardui Helps Women To Build Up

Cardui stimulates the appetite and improves digestion, helping women to get more strength from the food they eat. As nourishment is improved, strength is built up. Certain functional pains go away and women praise Cardui for helping them back to good health. Mrs. C. E. Faltuff of Hinton, W. Va., writes: "After the birth of my last baby, I did not seem to get my strength back. I took Cardui again and was soon sound and well. I have given it to my daughters and recommend it to other ladies. Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician."

HERE IS WHAT ONE ADVERTISER SAID:

Waynesville, N. C.
February 17, 1936.

The Waynesville Mountaineer, Waynesville North Carolina.

Gentlemen:—

I want to take this opportunity, in behalf of myself and organization, to tell you that for our opening here last week-end we depended on the advertisement placed in your paper to let the people of this community know of our opening.

The response, in spite of the weather, was far beyond our expectations. Our sales exceeded our most fondest hopes.

Very truly yours,

The Dixie Stores
