Hazelwood Presbyterians To Build \$10,000 Brick Church

Rev. Mr. Landrum Announced Plans Sunday Morning To Congregation

Rev. O. C. Landrum, pastor of the Hazelwood Presbyterian church, announced to his congregation Sunday morning that definite plans have been made to erect a \$10,000 brick church on the site where the present church stands.

The announcement came after months of planning, and a conference with members of the Home Mission board of the Asheville Presbytery on last Friday, at which time Rev. Mr. Landrum and W. B. Winchester attended. The Home Mission board had agreed to assist in financing the new church.

While definite building plans have not been completed by the architects, it is known that the church will seat about 300, which will be twice the seating capacity of the present building. The new building will also have accommodations that are now housed in the Sunday school annex and the church house, Mr. Landrum said.

"We expect to raise the money for the building from three sources; first, from subscriptions, second, help from the Home Mission board and third, we expect the brick to be donated," the pastor stated.

Actual work is expected to begin within two months.

The present church building was erected in 1906. The Sunday school annex in 1921, and in 1925 the manse and church house were acquired.

Hazelwood Needs Recreational Centers For Children, And A Community House, Says Summerrow

G. C. Summerrow Says It Is Duty Of Citizens To Be Concerned Of Young People's Welfare

By G. C. Summerrow. We all think that Hazelwood is one of the best little towns on the globe and we know that we have the best climate in the world, but when you stop and think we have other things that are of more value than all of these.

We have a multitude of children growing up in our town with no place to assemble and play except in the streets. It would be a great step forward if there could be a public park opened up some place in our town where the children could meet and play their games and be out of danger of the cars and trucks.

We also need a building where our young people could organize clubs, such as: Boy Scouts, Girl Scouts, and Campfire Girls.

There is much need of such groups here in our community.

Our adult world could avoid huge costs in money and heartache by exercising more concern in the guidance of boys and girls in the years of early childhood. It is then they require a pattern to build to.

Certainly it is the duty of every citizen whether he be a parent or not, to be concerned with the welfare of our young people.

Negligence and disregard today may later result in tragedies that are the responsibility of all of us.

Life is more or less a fight; a continual fight against evil tendencies, against moral cowardice, laziness, bad habits, and every present temptation to take the easy course and to do just the thing that should not be done.

Life is also a fight for the good for mastery of self and for the forces that lift us up and give us personal power and prestige.

It is just as important to fight the good fight for something worth while as it is to fight any evil thing. A man is his best, thinks his best, does his best, when he knows and others know that he is complete master of himself.

STREETS BEING REPAIRED

Members of the street department have been repairing the Main street of Hazelwood for the past few weeks. Several places had cracked and holes were beginning to wear.

On some of the gravel streets, rock has been placed.
