plea for a special session of the legislature.

From Raleigh this week came three large broadsides setting forth his qualifications for secretary of state—M. R. Dunnagan. He has two strong opponents, and because of this he is waging a hard-fought campaign. His literature is about the "strongest" and makes the hardest attacks that have been seen this year.

Former lieutenant governor, R. T. Fountain, was a Haywood visitor Tuesday. He is seeking the nomination as United States senator—opposing Senator J. W. Bailey, who is completing his sixth year in the senate.

Mr. Fountain is attacking Mr. Bailey on the grounds that the senior North Carolina senator has not supported the Roosevelt administration in every respect. Mr. Fountain said: "The whole North Carolina delegation in Congress supported the measures in their original form except Mr. Bailey."

The Rocky Mount candidate further charged: "That if Mr. Roosevelt is right, Mr. Bailey is wrong."

"The state should have gotten more relief money than we did," he said, "but as it is we only got about one-fourth of what other states got."

Mr. Fountain passed out a number of pieces of literature—one of which contained a speech he made against Mr. Bailey's record and the New Deal. He does not plan to make an address here, he said, and will not have an

A total of 14,806 pilots and 7,205 aircraft are now holding active Department of Commerce licenses. Last year at this time there were 13,886 licensed pilots and 6,855 licensed aircraft.

Twelve destroyers completed during 1915-1919 and found to be unfit for further use by the Navy are being active campaign manager in Haywood, unless "some friends come forth and volunteer their services."

While Mr. Fountain was here, close friends of Senator Bailey, remarked that they believed Haywood would go strong for Mr. Bailey, regardless of the battle being waged by Mr. Fountain.

Clyde News Events

W. A. Green, formerly with Francis Cafe at Canton, has recently leased the Justice Cafe at Clyde, which place he will operate for himself. Mr. Green states that he has thoroughly renovated, also somewhat remodeled, the place to meet his needs.

Mrs. Elender Noland is erecting a modern six-room residence in Clyde on the highway, the building to be of

native stone. Howell and Edwards, of Dellwood, have the contract.

Mr. Curtis, who operates one of Clyde's barber shops, will soon have his new place of business completed on Main street. One of the front rooms will be used for his barber shop, the other for a cafe. The rear rooms will be used for living quarters.

offered for sale by the Navy Department.

If the pennies collected in gasoline taxes between February 25, 1919, when the levy first was imposed, and January 1, 1936, were used to pave a highway 20 feet wide, it would stretch 20,000 miles, or four-fifths of the distance around the earth.

Stratosphere flying is regarded as "worthy of research" by nearly two-thirds of 1,000 licensed transport pilots questioned recently by the Department of Commerce. Advantages pointed out for higher altitude flying are greater speed, economy of action, and elimination of weather hazards after the lower strata are climbed.

Railroads, although maintaining one of the highest passenger safety records in the field of transportation, last year suffered one of the worst grade-crossing accidents on record since 1931.

Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'no-idea.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me." . . . If Cardui does not help YOU, consult a physician.

The first group will include children under eight years of age, the second group children under twelve years of age, and the last confined to those under seventeen.
