## President Has Stone And Brick In Masonic Marker

(Continued from page 1) acceptance of your cordial invitation to attend the dedication of the marker on July eleventh. I hope you will have pleasant weather and that the ceremonies are successful in every way.

Fraternally yours, FRANKLIN D. ROOSEVELT.

Stones of all sizes and shapes from many historic spots of the world have been received and are still coming in every day. One that is prized since it came near being lost is a volcanic rock from Seera Island near Aden, Arabia, where according to one author, Solomon and the Queen of Sheba met. It was sent by the Master of the Council of Royal and Select Masters at Aden, Arabia and was placed in the personal care of Capt. Morris of the S. S. Salisbury, a British ship, to be delivered to the company's agents at New York for forwarding. After traveling 13,000 miles the vessel entered Boston harbor about three weeks ago and in the fog struck an uncharted rock ripping the vessel open and sinking it. The first package to be saved was that containing the rock from Aden. After making all arrangements to get in touch with some Mason to whom he could entrust the stone for safe forwarding, The Consul's office contacted the Grand Lodge of Massachusetts, who sent their service director to interview Capt. Morris and accepted the responsibility of seeing that the stone was safely delivered to Waynesville.

The dedication of the marker and other features of the three day assembly of the Grand Council of Royal and Select Masters in North Carolina is expecting to attract at least

And the Honorable Zebulon Vance Weaver . . . returns to Congress to round out his twenty years of service . . . he made no campaign . . . and we heard a lot of talk that "Zeb" might not make the grade this time . . . but that silent vote developed a pretty strong voice in the final round up.

## 60 Attend Meeting Of Hospitality Group At L. Logan

The supper meeting of the Haywood County Governor's hospitality committee, of which Charles E. Ray, Jr., is chairman, which was held at Lake Logan Lodge on Tuesday night, was successful, both from a social as well as a business angle.

The meeting had been called so that the members of the group in the county might have an opportunity to become acquainted with each other, to gain information regarding the relationship of the state advertising committee to the governor's hospitality committee, and to determine ways and means of the proper and most effective functioning of the committee.

Mr. Ray presided over the meeting. Principal speakers were T. E. Pickard, of Raleigh, executive secretary of the governor's hospitality committee, John Baskerville, of the division of state advertising, both being connected with the state department of conservation, and Robin F. Phillips, of Asheville, chairman of the Buncombe county hospitality committee.

Others taking part on the program were: Mrs. Gunter Bohndahl, of Canton, county vice chairman, who introduced the Canton members of the committee, Mayor Paul Murray, of Canton, W. J. Dantoft, Mrs. McKee, of Camp Junaluska, and Mr. Wilson, director of music at New College Community.

Around sixty persons, including the members of the county hospitality committee and guests attended the meeting.
