Sixty-nine per cent of boys planted one or more acres of soil improvement crops.

One-half of boys used recommended feeds and fertilizer for projects.

Ninety-nine per cent of boys carried two or more projects and all boys paid agriculture dues and F. F. A. fee.

We have added 420 plant specimens and 16 forest samples to our museum.

We have improved our classroom by painting, adding pictures, books and the like and more equipment will be added to our shop soon.

We had two delegates at the State F. F. A. convention in Raleigh last July, and Burton Cathey received the Carolina Farmer degree.

We conducted two chapel exercises. Eighty per cent of boys saved 25 per cent or more net profit on projects.

We conducted all meetings according to ritual and averaged 92 per cent attendance.

Twenty-one per cent of boys made an average of 85 on all high school subjects and 16 per cent averaged 90 or more on agriculture.

All boys read one or more books relating to agriculture and all boys read 15 or more agriculture bulletins.
