#### **Excited Football** Fan Knocks Out **Tooth On Radio**

Hundreds of dollars changed hands on bets placed on the Rose Bowl game Monday, but it was left to a Waynesville man to lose a tooth on the game.

No, it was not a bet. Neither did he lose it in battle.

It all came about during the heetic last forty seconds of the game, when Southern California scored the winning points. The local man became so enthused that he jumped from his chair, to get closer to the radio, and in his excitement miscalculated his distance, and struck his tooth on the corner of the radio.

The tooth was a false one-and to add to the odd story, the tooth is still lost, but the gaping hole vouches for the truth of the in-

\* \* \* \* New Court Here FIELD Lures Big Games Of Four Colleges

> W. C. T. C., Catawba, Lenoir-Rhyne And Appalachian Coming Here For Games

It has often been stated that the new court in the junior high building was one of the best courts in Western North Carolina. This has been confirmed by Western Carolina Teachers College, who will play several of their games on this court.

Due to the building program that is necessary on the campus of WCTC the old gym has been razed and the new one will not be finished until next season. The Catamounts have been granted permission to use the local court for their games scheduled at

This will give local fans a chance to see basketball played in the style of colleges as well as high school.

The number of games to be played here by Cullowhee has not been definitely decided but here are a few of the games that will be played in Waynesville:

Tuesday, February 14, Catawba. Saturday, February 18, Lenoir-

Tuesday, February 21, Appalachfan. It is probable that other games will be played here, and if so the account will be carried in these col-

## Business Leaders Say; "1939 Will Be A Good Year"

When business is good, building goes on a boom . . . the prices of building materials rise ... labor is absorbed, and it takes longer to do the job, and cost more during boom periods. . .

So our advice is, that if you anticipate building or repairing of any kind, that you do it AT ONCE.

And by all means, consult us for anything in the building line.
