

IN THE ROUNDS WITH THE CIRCULATOR

Over Haywood County
By Robt. M. Clark

The advent of June finds Haywood farmers busy with a number of

hundreds of thousands of tobacco plants have been set into Haywood the past week. And the end is yet.

Most of the corn has been cultivated and hoed. With the necessary amount of replanting.

There's spinach. A truckload that delicacy made famous by the county roads these days.

Farmers in the county have been in need of moisture this week, the East Fork country and the Saunook section have had enough and to spare.

Some hail in the West Fork section. And what residents of the Cruso section claim as the hardest rain ever seen there hit them on Thursday of last week. Large logs on the Pink Cogburn timber tract were carried away like straws. And a logging road is said to have disappeared completely.

It used to be charity that covered a multitude of sins. Now it's "emergency."

Singing Convention To Meet At Allen's Creek Baptist Church Sunday

A singing convention will be held at 2 o'clock Sunday afternoon at Allen's Creek Baptist church. The Rev. C. L. Allen will be in charge of arrangements. Mr. Allen extends a cordial invitation to all the choirs and singing groups in this section to meet at the Allen's Creek church on Sunday.

home of his father-in-law, J. Boone Swayngim in Ratcliffe Cove.

APOLOGIA

Your Circulator erred last week in crediting Jerry Howell with the best large patch of Irish potatoes he had seen in his circulations. The credit should have gone to Albert Howell. The pardon of both gentlemen is hereby asked.

Incidentally, too, there were two items which should have been included in that list of superlatives, except that their locale was visited too late in the week. A wheat field and a field of red clover. Both on the Allenvale Farm at Hemphill.

Wet and dry. While parts of the county have been in need of moisture this week, the East Fork country and the Saunook section have had enough and to spare.

Some hail in the West Fork section. And what residents of the Cruso section claim as the hardest rain ever seen there hit them on Thursday of last week. Large logs on the Pink Cogburn timber tract were carried away like straws. And a logging road is said to have disappeared completely.

It used to be charity that covered a multitude of sins. Now it's "emergency."

Baby, Mother and Infant

Lina Medina and her infant son

Here is the first original picture to reach the United States of Lina Medina, five-year-old Lima, Peru, mother, and her infant son. Offers to appear at the New York world's fair have been received by representatives of the little Indian girl.

"Mayor, Please Go Light On My Sentence This Time"

"A feller just can't drink the liquor around this here town without it gets him down. If you'll just let me off this time I'll promise to pay up and if I'm ever brought here again, I'll ask no favors. Mr. Way, I'm needed bad at home to work. My mother's old and she's right now worried plumb sick about me," pled one of the ten drunks father of a motherless brood of little children, asking for release from the 64 days on the roads given him by the mayor in the city court yesterday afternoon. The age old habit of the male in

trouble seeking to hide behind a woman's skirts—when he should have been protecting her.

The ten drunks receiving sentences from 32 to 64 days on the roads, and suspended sentences on payment of costs and good behavior, made up the city court records for Friday and Wednesday. Some were old time offenders, their names familiar in court records for years, others new at the game—two CCC boys, each with \$3.00 in his pockets, their cash taken for the fines, and they were sent back to their camp.

WHAT TO SERVE THE KING

What dainty dishes to serve King George and Queen Elizabeth has been a Canadian and American problem ever since it was announced the Royal pair would visit America. Mrs. Henry F. Nesbitt, housekeeper at the White House, where the monarchs will visit has found out what they were served last summer in France and at state dinners in Britam. Last week the results of Mrs. Nesbitt's work—her suggestions had

been approved by Mrs. Roosevelt—were announced. King George and Queen Elizabeth won't go hungry. At state dinners they will be served clam cocktail, calves' head soup, broiled fillet of flounder, sliced tomatoes, capon, cranberry sauce, peas, beets, sweet potato puffs, frozen cheese, and cress salad, maple and almond ice cream and coffee. (From now on this paper will carry the police court records in detail.)
