When Three Freights Pile Up

Here is the tangled wreckage of that Piqua, O., train pile-up which took the lives of three enginemen and injured four others. Three freight trains piled up after one had stopped to take on coal.

All Persons Begging, Are Asking Alms Required To Have A License

Combination Shovel For Work And Rest

It is said that demand for an article creates a supply. By combining a standard No. 2 coal shovel, with a folding seat, the Alphabetical Shovel Company, of Mt. Vernon, Ill., has recently put on the market a very novel but useful article, with which one can either work, or enjoy moments of leisure.

It is known as "We Please All" or W. P. A. Alphabetical Shovel. It is reported in a recent business magazine that the shovels are becoming quite popular on the market and are being sold for "more or less serious purposes."

Rigid Regulations Now Govern All Persons Seeking Contributions

With the coming of the summer season, and usual influx of individuals who make a living soliciting alms, it might be well to call attention here, to the law passed in the 1939 Legislature, which requires of such persons, or organizations, to have a license.

The law is found on page 169 and chapter of 144 of the public laws of North Carolina, just recently off the press.

The law, which is now in force, reads in part as follows:—"It is unlawful for an individual to engage in the business of soliciting alms or begging charity for his or her own livelihood upon the streets or high-ways of this state, or through door to door sollicitation without first securing a proper license. . . ."

"Persons desiring to engage in the business of soliciting alms or begging, must file their name, address for past five years, and manner in which funds received will be disbursed. The carrying of merchandise by the individual from soliciting alms or begging charity do not exempt the individual from having the required license."

Blind persons, or other visually handicapped, are to apply to the State Commission for the Blind for proper license.

Insurance of licenses by the State Department of Vocational Rehabilitation for cripple persons will be made.

The Bureau of Labor for Deaf will handle licenses for the deaf.

All other persons desiring to solicit alms publicly and all organizations, institution or associations desiring to ask for alms, shall make application to the State Board of Charities and Public Welfare.

All persons must have this license on them at the time of making sollicitations, with copy of a recent photograph attached.

The law does not apply to any appeal or sollicitation made in a public religious or charitable or educational service or in a meeting of any lodge, or church, Sunday school, or charitable organization or through the public press, American Legion and other patriotic organizations.

Solicitors selling books, periodicals, advertising matter or merchandise for charitable purposes are also obliged to have a license.

And person soliciting alms without first applying for and obtaining a license, or those who shall solicit funds and revert them to some other purpose other than that for which they were contributed shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not more than \$500 or six months imprisonment.

National Deficit To Fall Short Of Predicted Figure

Public Debt Now Over 40 Billions, Which Is 3 Billions Over Last Year

WASHINGTON.—Treasury officials estimate that the Federal deficit this year would fall \$500,000,000 short of the \$4,600,000,000 once expected.

Expenditures have been somewhat smaller and income slightly larger than they expected when they mapped out the \$9,500,000,000 spending program about a year ago.

They hoped the Government borrowing to finance the deficit would put to work money that would otherwise be idle in banks.

With six weeks of the fiscal year which ended June 30 to go, the Treasury had spent \$8,025,790,442 and taken in \$4,949,631,914, creating a deficit of \$3,076,158,528.

June 30, expenditures are expected to total \$9,500,000,000 and receipts budgeted \$9,500,000,000 and receipts about \$2,000,000, making the deficit \$3,500,000,000.

This deficit would be about on a par with those in the heavy spending years of 1934 and 1935, but far below the peace-time record of \$4,763,842,000 in the 1936 fiscal year, when the soldiers' bonus was paid.

Next year, the deficit is budgeted for \$3,200,000,000, but some Administration advisers both in and out of Congress are informally discussing an enlarged spending program.

The public debt now is at a record high of \$40,227,673,187, which is \$3,063,000,000 more than it was a year ago.
