National Defense Committees Give Favorable Reports

Haywood Council National Defense Council Held Enthusiastic Meeting Monday

All committees recently appointed to have charge of the national defense program in the county gave favorable and encouraging reports of the progress in the home garden projects being inaugurated in connection with the program at the meeting on Monday night of the Haywood County National Defense Council.

Jack Messer, chairman of the school committee, reported that all teachers had been asked to devote some time each day in teaching the children good garden and live-at-home practices and stressing the importance of the program. Five thousand copies of garden bulletin have been turned over to the principals of the schools and one will go into every home. These bulletins deal with recommended varieties of different vegetables, fertilizer, seed, and daily food essentials.

J. L. Westmoreland, chairman of the demonstration farms committee, gave a very good report. He had letters from ninety-four demonstration farmers from every township agreeing to aid any family in their community in planting a garden.

Yates Bailey stated that the 150 families working with the Farm Security Administration were planning gardens. He pointed out that the F. S. A. would assist the low-income families in providing pressure cookers, cans, and storage space.

Mrs. Henry Francis reported that the county home demonstration club members had all agreed to assist at least two families in their community in providing a garden. Mrs. Francis said she had visited over twenty-five families during the last ten days and assisted them in establishing a garden.

The ministers committee was absent, but Rev. Oder F. Burnett, of Cruso reported previous to the meeting that all ministers had been contacted and were stressing the program in the worship services each Sunday.

Mrs. Sam Queen, chairman of the W. P. A., N. Y. A., and O. D. C. committees, made a favorable report. All foremen on W. P. A. jobs are taking time out to instruct the worker who has not made plans for a garden.

W. H. F. Millar, chairman of

Completing Biggest Bomber

This looks like a vehicular tunnel, but actually it is the pilot's compartment of the 80-ton Douglas B-19 bomber, world's largest airplane, which is nearing completion in Santa Monica, Calif. The \$2,000,000 craft will have the greatest load-carrying capacity, longest flight range and most powerful armament of any sky ship ever built.

the American Legion committee, made a short talk on pro-Americanism. He said that growing food for every family was the right kind of propaganda. He assured the group that the American Legion would back the program.

J. E. Barr, chairman of the publicity committee, gave some plans regarding a special section of the local newspapers calling attention to the garden program. He said plans were being made to print about 500 posters to be placed in Haywood county.

The committee appointed to work on posters was: J. C. Brown, J. E. Barr, C. A. George, Miss Mary E. Smith, and J. C. Lynn.

A committee was appointed to work with colored people of the county in providing for a home garden. Frank M. Davis, Waynes-Corpening, and J. C. Brown make up this committee.

J. C. Lynn, county agent, was elected president of the Haywood County Defense Council, W. H. F. Millar was elected vice president, and Mrs. Henry Francis was elected secretary-treasurer.

The next meeting was set for April 28 (Monday night at 7:30). Garden plans and information may be had at the county agent's office.

Used Table Linen

Table linen that begins to show wear may be easily converted into runners, place mats and napkins.

Hazelwood Pastors Voice Disapproval Of Sunday Movies

The ministers of the churches in Hazelwood have voiced their opposition to Sunday movies through a written request to Mrs. W. A. Mitchell, owner of the Star Theater that opened here on Saturday evening, March 22.

The request set forth that the Hazelwood ministers believe that the showing of secular movies on Sunday at any time, 1. Is against the sacred traditions of our forefathers who settled North Carolina and this country; 2. Helps to lead people without strong convictions and innocent children to a wrong conception of the Sabbath day; 3. Is in direct opposition to the teaching of the Bible, God's holy word; 4. Is in direct opposition to the influence of the church which is regarded by the great leaders of America as the foundation and promoter of morals and civic righteousness; 5. Is in the opinion of many of the best people of Hazelwood wrong and detrimental to our homes and people.

The request was signed by the Rev. J. M. Woodard, pastor of the Hazelwood Baptist church, the Rev. S. B. M. Ghiselin, pastor of the Hazelwood Presbyterian church and the Rev. R. Odell Brown, pastor of the Hazelwood Methodist church.
