

Governor Urges Citizens To Buy Tuberculosis Seals

The 35th annual sale of Tuberculosis Christmas Seals sponsored by the North Carolina Tuberculosis Association, and locally handled by the Woman's Club, is well underway, it was learned this week from Mrs. Frank Ferguson, chairman.

The sales are being conducted in the main through the schools, with each grade or classroom responsible for a definite number sold. Mrs. Ferguson is calling attention to the following appeal from Governor J. M. Broughton in behalf of the seals:

"Under the sponsorship of the North Carolina Tuberculosis Association, there will again be held this year the annual sale of Christmas seals. The people of North Carolina have always responded wholeheartedly in this opportunity for serving so commendable a purpose."

"It is well known that the proceeds of the sales of Christmas seals go directly and completely towards the object stated; that is for the relief and prevention of tuberculosis in North Carolina. A substantial portion of the proceeds is used in the respective counties in which the sales are made. Those who are charged with this undertaking are among our most highly regarded and public-spirited citizens, who are deserving of the fullest co-operation on the part of our people."

"Now more than ever before there is a need for this sort of undertaking, and I certainly urge that the people of this state in every city, town and county will give wholehearted response to this appeal."

Deletes 'Dust Bowl'

Albert Law, editor of the Dalhart, Tex., paper, is looking for the person who coined the term, "Dust Bowl," for the Southern Great Plains. He wants to take him on a tour of the area which, this year, is brimming with a record crop. Law also offers \$25 for a new term best describing present conditions.

Mrs. J. T. Noland Heads Home Club At Maple Grove

The Maple Grove home demonstration club met in November at the home of Mrs. H. C. Justice, for its annual all-day meeting.

The graciousness and generosity of Mrs. Justice as a hostess has added much to these meetings for the past two years.

During the morning the guests prepared the dinner. Each member furnished some dish and the result was a bountiful holiday meal.

The regular meeting was held in the afternoon. During the business meeting the following officers were elected for the next two years:

Mrs. J. T. Noland, president; Mrs. H. C. Justice, vice president; Mrs. Ed Glavich, secretary; Mrs. Otis Burgin, reporter and song leader. Miss Mary Margaret Smith gave an outline of the next year's meetings and suggestions for Christmas decorations and presents. Her demonstration was, "How to Reduce the Holiday Bills."

MISTLETOE LOSES CHARM WHEN BERRIES ARE GONE

In the language of flowers, Mistletoe means "give me a kiss." This has its basis in a Scandinavian myth. And from this old tale we

derive our custom of kissing the mistletoe.

As it hangs upon the door or in the doorway, each claims a kiss from the chances beneath it with the vision: that the lad removed to give to the maid, until when no berries are left, loses its spell and no more are then available.

The story continues: the maiden who receives no kiss under the mistletoe will not that year."

Employment Office Breaks Record Of Placements Made

(Continued from page 1)

drop in calls after the summer rush, 83 persons were placed in jobs in Haywood county.

During the month of October 94 persons were given employment through the office. While in November the peak was reached of 109 placed in jobs, all in this county.

In addition to the large number placed in positions in this section a large number were given employment out of the state during the three month's period.

One day during the past two weeks, from 9 in the morning until 1 o'clock 115 persons were interviewed, a number including employers making inquiries for workers.

Due to the number of applications and placements made now through the office, which is steadily serving a larger number of people, it is necessary now for all applicants for positions to make definite appointments for interviews, according to Mrs. Alley.

Employers are gradually becoming more to depend on the local office to supply them with employees, due to the speedy service and reliable type of employees contacted through the service.
