Instructions **For Blackout**

Cut off all lights or keep light from showing outsside by using black shades-at once when signal is sounded.

If you plan to be away from home at the hour set for the blackout, or in the future, exall lights before tinguish leaving.

If riding pull up to the curb inside city limits and stop car and turn off lights. Fires and and open fire places that show from the outside should be hidden by dark shades.

Don't merely blackout the front part of your house, but the entire building.

Business houses must have outside switches on all lights left burning after closing hours. Certain wardens will assigned to do this and in cases where the firm prefers do so themselves they are asked to designate some one person to be responsible for cutting off the lights.

Stay indoors or under shelter till the "all clear" sounds. Keep away from windows. Don't look out.

Don't telephone.

Keep calm and cool. Put out your lighted cigar-

All Citizeens Of Community **Urged To Cooperate In** First Complete Blackout.

After two preliminary signal blackout rehearsals, one at night and another in the daylight, Robert Hugh Clark, air chief warden, of Waynesville, Hazelwood, and Lake Junaluska area, has set tomorrow night for a 30-minute actual blackout from 8:45 to 9:15.

The signals will be the same as in use on both the trial practices, with the simultaneous sounding of the fire siren in Waynesville, the whistle of the Junaluska Supply Company at Lake Junaluska, and the whistles of the England-Walton and Unagusta companies in Hazelwood. A two minute blast will sound throughout the entire area.

At the first sounding of the warning signals all lights in the community are to be put out. Persons failing to do so will be subject to citation by the police department or the sheriff.

Each air warden is sworn in as an auxiliary police for the dura-tion of the air raid, and the same respect must be shown his author-ity as that of the regular police or safetyq officer.

The air wardens are expected to serve within a radius of three miles of their given territory and the blackout will extend anywhere within hearing distance of the warning.

Assistants to the wardens are being named in each locality.
