

A Week Of The War

Army Chief of Ordnance Campbell, speaking at Salisbury, said our tanks are superior to any the enemy has. Type by type, our tanks have heavier guns, heavier armament and greater speed. Our high-velocity 75-milimeter guns in our M-3 tanks far outpace the best the Germans have. . . . and we can fire high-velocity 75 when the tank is in motion, which is more than any enemy tank, whatever its type, can do."

Gen. Campbell said the so-called "new German 88-MM. Gun" is "about as secret as a Daisy Water Pistol. It has been known to us and our Allies for at least a year. We outmatch this gun with several of our field and antitank guns." He said the German 88 is effective as an antitank weapon only within its limited range. U. S. machine guns, Gen. Campbell said, will "outfunction any enemy gun under the most adverse circumstance—in other words,

He Brought Down a Nazi Plane

Manning the machine gun with which he brought down a Heinkel plane is E. W. Boakes, steward on the British trawler *Northern Sky*. The Nazi plane flew over his ship at seven in the morning, just as he was preparing breakfast. The alarm sounding action stations was still blowing when Boakes' marksmanship sent the enemy plane crashing into the sea. (Central Press)

they will keep firing when enemy guns have to shut down to change barrels." The United States "can build a better automobile, a better typewriter, a better icebox and we can build—and are building—better machine weapons," Gen. Campbell said.

The WPB reported the dollar value of war shipments from 430 automotive industry plants totaled \$350 million during April, an increase of 46 per cent over February.

THE WAR FRONT

The "Flying Tigers" of the American volunteer group were placed under the army air corps command in China and opened operations with heavy raids on three key Japanese bases at Hankow, Nanchang and Canton. Six Japanese planes were destroyed without loss.

A navy communique reported army bombers scored hits on an enemy cruiser and sank a transport in the Aleutian Islands. In addition, navy submarines sank three destroyers. The situation in the Islands "has not changed materially," however, in the past two weeks, the navy report said. The Office of Indian Affairs announced all of the Aleutian Islands west of Dutch Harbor, as well as the Pribilof Islands, have been classified as parts of a total evacuation zone. The office said nearly 1,000 civilians have been removed from these areas by the navy and transferred to the American mainland.

The first communique from U. S. headquarters of the European theater reported six U. S. Douglas light bombers manned by U. S. pilots successfully attacked targets by daylight in German-occupied territory in a joint operation with RAF bombers. Two American planes were reported missing. The navy said U. S. bombers carried out a second attack on Japanese-held Wake Island. The navy also announced the U. S. aircraft carrier Wasp carried aerial reinforcements to the British Island of Malta in the Mediterranean. Gen. MacArthur's Australian headquarters reported repeated air raids on Japanese-held territory in that

NYA Will Give Defense Training To Boys and Girls

The National Youth Administration will continue to give training to boys and girls between the ages of 17 and 25 in the resident centers located in the state, it was learned here this week from Mrs. Jimmie Boyd, youth personnel interviewer, for this area.

Although local work projects have been discontinued, outstanding opportunities may be found in these centers, which are teaching various trades in connection with war industries.

Training is given in sheet metal machine shop, welding, radio and electrical work, and girls as well as boys are eligible for all these courses.

Placements are being made after as much as three months of training. Mrs. Boyd is in her office at the court house on Monday, Tuesday and Friday of each week and anyone wishing information is asked to call at the office on the designated days.
