Recreational Program To Begin June 1st

State Guard Needs 25 Recruits At Once

Experienced Man Employed To Take Charge Of Work

Well-Rounded Program Is Outlined For This Community By Council.

A community-wide recreational program will be launched in this community the first of June, according to an announcement made at a luncheon meeting of the Community Council held Tuesday at the Hazelwood school, with Mrs. Rufus Siler, chairman, presiding.

The director, employed by the Community Council, is a man of wide experience and comes from one of the largest directed recreational centers in the state, according to C. E. Weatherby, chairman of the committee to secure a director, who made the announcement at the meeting.

Dr. Harold E. Meyers, of Chapel Hill, executive director of the North Carolina Recreational Committee, was the guest speaker of the council meeting which was attended by approximately 30 people including members and guests.

Dr. Meyers gave an impressive outline of the part a recreational program can play in a community. He stressed the fact that recreation for the rural, industrial and central community areas should not be separated, but all grouped together, and that the busiest people were in the greatest need of recreation.

He pointed out the necessity for a recreational program that would include the very young and the old, stressing the fact that community recreation did not mean merely a playground, but a well organized and diversified active program that would meet the relaxation needs of all groups and ages.

Dr. Meyers emphasized the importance of utilizing natural resources in a community in the recreational program, stating that in this particular area mountain trails, swimming and fishing should be featured.

He advised that a group of five representatives from the student council of the high school be asked to meet with the selective committee from the general community council who would work out the recreational program activities for the teen age groups.

Dr. Meyers was high in his praise of the director for the local community program selected by the committee. He stated that he had known his work in other towns of the state and that this section was fortunate in securing his services for promoting a community program.

Dr. Meyers was enthusiastic over the manner in which the local community council had been organized and complimented the group on the vision of service shown in the general set-up for recreational opportunities.

In discussing juvenile delinquency, Dr. Meyers stated that while there had been an increase in some areas, it was not true on the whole and that taken on an average juvenile delinquency was on the decrease due to such recreational programs as had been designed by the local council.

Dr. Meyers was introduced by Chas. E. Ray, who had formerly known the speaker when he resided in Chapel Hill.

County Hospital Impresses Visitors On Hospital Day

National Hospital Day was observed on Friday by the Haywood County Hospital. Open house was held from two until five o'clock. Mrs. Evelyn Abel Osborne, superintendent, welcomed the callers in the entrance of the hospital, and the senior Girl Scouts served as ushers taking the callers over the hospital and nurses home.

The various halls and offices of the hospital were arranged in baskets and bowls of flowers sent for the occasion by the friends of the institution throughout the county. From the front door to the kitchen everything shown with spotless cleanliness and a well supervised organization of all details of operation were noted by the callers.

After the guests were shown over the entire hospital from the first to the third floor, they were invited to inspect the nurses home. In the large reception room, punch and cookies were served by Mrs. M. C. Green, and Miss Daisy Allen, of the personnel, assisted by the Girl Scouts.

The Haywood County Hospital was opened in December, 1927 and has served thousands of Haywood folk and many visitors coming to this area, who would otherwise have had to go out of the county for treatment and hospitalization.
