## State College Hints

By Ruth Current, State Home  
Demonstration Agent N. C.  
State College.

With new pressure canners on  
the market, home canners must  
now more than ever follow care-  
fully, fully, and completely the  
manufacturer's directions. Be sure  
you know how to use the release  
valve, the petcock, and the pres-  
sure gauge.

Where shall we store all the  
jars of food we have packed for  
winter use? The specialists tell  
us to place them where they will  
be cool and dry, in the dark and  
easy to reach. Heat, dampness  
and unnecessary handling all con-  
tribute to spoilage, and light is  
likely to cause fading.

Tomato tips. Sort and use rip-  
est tomatoes first. Keep the rest  
spread out where it is cool. The  
refrigerator is a good place.  
Peel and cut tomatoes quickly,  
just before you are ready to cook  
them or served raw in salad. If you  
must prepare tomatoes ahead of  
time, be sure to keep them covered  
in a cold place until you use them.

The simplest way to remove mil-  
dew from washable fabrics is to  
wash in lukewarm soapy water,  
rinse thoroughly and dry in sun.  
If stains are dense, soak overnight  
in sour buttermilk. Do not rinse  
but dry in sun. Repeat is neces-  
sary.

With clothing scarce, high-priced,  
and not up to standard, it is  
wisdom to rework the idle gar-  
ments that can be worn. Before  
autumn comes is a particularly  
good time to round up prospects  
and see whether out-of-date coats,  
skirts, or suits have wear enough  
in them to be worth turning—  
by make-over-magic—into snappy  
outfits for a child to wear to  
school, or perhaps into garments  
needed by the older folks in the  
family. Extension Miscellaneous  
Pamphlet No. 86, "Clothing—Using  
What You Have" might help you  
with your renovation problems, a  
copy of which may be had on re-  
quest from the Home Demonstra-  
tion Office, State College, Raleigh.

One of the best investments a  
community can make is to see that  
its children are well fed. The  
school lunch is a systematic way to  
provide a third to a half of the  
child's daily nutritive needs. It  
is an investment in young people  
—the future of America.

A free booklet giving all details  
about the school lunch program  
may be had by writing the War  
Food Administration, Washington  
25, D. C., for "Lunch At School."

Hints to use in shopping: Do you  
check ceiling prices? Do you keep  
a record of your expenditures?  
Could you save a larger share with-  
out jeopardizing your family's wel-  
fare? Do you get your money's  
worth?

Was your selection made on the  
basis of label information, adver-  
tisement, the previous experiences  
of yourself or your friends, or just  
because the articles appealed to  
you at the moment?

Do the meals you plan contain

## Lt. John Everett Penny Becomes Navigator

Lt. John Everett Penny, son of  
Mrs. Bess Francis Miller, has re-  
ceived his wings as aerial naviga-  
tor in the army air forces at  
San Marcos, Tex. The class in  
which he graduated was the largest  
in the history of the Central Fly-  
ing Command Field to receive their  
wings as aerial navigators.

The men were from 46 states  
and the Territory of Hawaii. They  
included student officers ranging  
from the grade of captain to chief  
warrant officers. Lt. Penny was a  
student officer.

## Lt. Sam McElroy Spends Short Leave

Get it over with. Get back home. Get a job. That is  
what our fighting men are thinking and talking about.

First — victory. Next — nail down the peace.

Then they want to throw off the rigid regimentation of  
military life — and not run into the same sort of regi-  
mentation back home.

They want to set out for themselves, as Americans  
always have . . . to use their own heads and hands in  
fashioning their own destiny.

A job and an opportunity — in the American system  
of free enterprise. This is the post-war plan of men  
in uniform.

Government can't be expected to carry out these  
plans. It's up to every one of us at home to see that  
they're fulfilled — eleven million times.

We will do our part.
