**VICTORY PLEDGE OF AN AMERICAN**

I am an American. I and my sons have a big stake in victory. While my sons are fighting for freedom, I will work hard here at home that food and weapons in abundance will ever fight on the side of America.

I will do my part to keep our country financially and economically strong. All income from my work, above the need for necessary expenses, will be invested in War Bonds to buy the equipment that my sons—the sons of all Americans—will use to speed the victory.

I am also laying up the financial making this investment in victory. I am also laying up the financial reserve for peace and against the day when my sons will come marching home.

When that happy day comes I and my sons will build a better and stronger America in a world where liberty and justice have been made safe for all. My thinking—my money—my time will stay in this until the finish.

**10,000 NURSES MUST BE RECRUITED**

Of interest to American families everywhere is the fact that the Army must recruit 10,000 nurses immediately in order to care for wounded and sick soldiers, both at

### Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

**Big Business**

A LOT of the writing and talking that's going on these days about "big" business seems to miss one pretty important point. In judging bigness solely by such things as number of employees, size of payroll, or volume of sales, it overlooks the size of the job the particular business is required to do.

After all, any business exists because there's a demand for the things it produces or the services it renders. And it must either grow to the size necessary to satisfy these demands, or else make way for a competitor that can provide what is wanted.

The war has shown that America's factories and farms can meet demands that would have been fantastic in pre-war years. This is a big country; there will be as big jobs to be done in peacetime as any the war produced. It will take the right kind of "big" business to do them. And whether it operates a 100-acre farm, a garage, a bank, or an industry with 100,000 employees—this kind of big business, which serves the public satisfactorily and with integrity, will continue to be the foundation of America's strength and security, in peace as in war.
