11 Boys Become Eighteen During November

The following boys in the Waynesville area of Haywood county became 18 years of age during the month of November and are now subject to call for active service under the selective service system: Calvin Talmadge Francis, Waynesville, R.F.D. No. 2; Kenneth Earl Turner, Hazelwood; Joseph Thomas Wilson, Waynesville; Horace H. Sutton, Waynesville, R.F.D. No. 2; Clarence William Harrell, Cove Creek; Lawrence Hubert Sutton, Clyde, R.F.D. No. 1; Herschel Owens, Cove Creek; Jack Guy Rector, Clyde, R.F.D. No. 1; James B. Allison, Waynesville, R.F.D. No. 2; Sam Ewart, Waynesville.

A local couple once had a quarrel and got into police court. A neighbor was a witness:

Judge—Were you present at the beginning of the trouble?

Witness—Certainly, I was a witness at their wedding.

Does That Cough Really Worry You?

"Bron-chu-line Sure Acts With Speed."
But adults can't expect real relief from the same sweet syrupy concoction that you'd give to a child. When you want to throw off a bothersome cough from a cold you've just got to have a real cough medicine; then you should ask your druggist for a bottle of good old Bron-chu-line Emulsion. Bron-chu-line isn't a cheap cough syrup; it's a real cough medicine. It's a fact! Elephants live to be 60—aren't in their prime at 45—but the average car today is 7.8 years old. Old age increases wear—so give your car regular ESSO dealer care especially now at fall changeover time!

Slightly Wounded Cpl. T. F. Sutton Convalescing In English Hospital

PVT. VICTOR S. RICE, son of Mrs. Joe Rice, of Buncombe county, who was reported slightly wounded in Holland, October 5, whose wife is making her home with her family in Haywood county.

Corporal Taylor F. Sutton, 25, son of Mr. and Mrs. J. I. Sutton, of Vance Street, Waynesville, who was wounded in the left leg by Germany artillery shrapnel during a barrage on his division's bivouac area near Sydlberg, Germany, is now convalescing in a United States Army general hospital in England, according to information received from the European headquarters operations.

Cpl. Sutton's wound is healing satisfactorily and he will be returned to the United States for further hospitalization, according to his ward surgeon. His division had been placed in a rest area after the battle of France but were still within range of Germany heavy artillery which shelled their area intermittently.

"The Jetties opened up early in the evening and I was hit by shrapnel while lying in my foxhole," said Cpl. Sutton, who was given first aid by a company and man within five minutes after being hit. He was given further treatment at an aid station and was evacuated to England by hospital ship.

Cpl. Sutton drove a bulldozer and truck in Waynesville before entering the service in May, 1942.

Pfc. Guy R. Chambers Serving In England

Pfc. Guy R. Chambers, son of Mr. and Mrs. E. K. Chambers of Waynesville, R.F.D. No. 1, is doing his part in handling the mountains of aircraft supplies for the world's fighting fronts which are growing higher at the air service command depots in England.

He is one of the thousands of supply soldiers in the Air Service Command and his job at the depot of helping to provide constant air cover over advancing ground forces in Western Europe.

Crated at the depot's unique box factory, the tone of equipment are waiting at the command depot for rush orders from combat air bases near the front lines.

Pfc. Chambers has a brother in the service, Ted H. Chambers, seaman third class, who is serving in the Pacific area. Before entering the service Pfc. Chambers was employed by the Utah Construction Company.

Sgt. John W. Lewis Receives Discharge

Sergeant John W. Lewis has received an honorable discharge from the Army Air Corps. He and his wife, the former Miss Corene Smathers, will leave this week to make their home in Wilmington, Del.

Bernard's Warehouses

Nos. 1-2 & 3

Opening Dec. 11

For The Sale Of Leaf Tobacco At Greeneville, Tenn.

THE PIONEER MARKET—A Flue Cured market from 1884 to 1898. After the latter date, offerings consisted of both Flue Cured and Burley up to 1918—all other sale points having in the meantime quietly folded up — GREENEVILLE was the ONLY MARKET in this TOBACCO BELT for 20 years.

Subsequent to 1918, there was a large increased acreage of Burley due to price advances resulting from the first European War. This, with the advent of good roads and mechanical transportation, prompted outlying points, having no conditioning or storage facilities, to open sale floors, and due to their existence, much of the buyers purchases are trucked to GREENEVILLE for conditioning, thus causing the handling facilities to become taxed, delaying the emptying of GREENEVILLE SALE FLOORS.

Since a large percent of the CROP finds its way ultimately to GREENEVILLE, from which buying instructions and payments of purchases also issue, it is only fair that if the handling facilities of GREENEVILLE are at any time to become congested, it should result from a larger percent of first-hand growers of tobacco and less from outlying, ill-equipped points.

There are two methods by which growers can lessen this injustice imposed upon the GREENEVILLE MARKET—One is for growers having weight grades to sell direct to GREENEVILLE; second, is to lengthen the sale season — this is their power. March and April used

to be the largest sale months. Now that the GRADE CEILING PRICE is fixed and remains the same even after the market closed (WE SOLD AFTERWARDS various crops from far and near at ceiling prices) the grower can now, with safety, market his crop at his convenience.

We are familiar with the OFFICIAL GRADE LETTER MARKS; in fact, we introduced them six years ago, that we might justly award premiums for the highest price baskets of the various grades of required weight of 200 or more pounds.

GREENEVILLE being the ESTABLISHED MARKET and the final point of delivery for much of the crop, it goes without saying that the toleration with reference to order and grade defects in its classification is more liberal. That this is true is evidenced by the fact that although a larger percent of off type and commoner grades is marketed at GREENEVILLE, yet its average was higher than outlying points.

The same Grade Ceiling Price as that of last year's crop is expected to rule for this crop, and growers who elect to market their tobacco at Bernard's may be assured its management is competent and quick to recognize the merits of each and every Grade.

Tune in at 7:15 and 8:15 (CWT) over WJHL for Greeneville Tobacco Board Market Report.

Limit basket weight—700 pounds.

Believe us, it is our wish to serve every one justly and acceptably.
