

Col. J. C. Lynn Given Extended Leave In Europe

Lt.-Col. John C. Lynn, former Haywood county farm agent has been given a war-time leave of absence granted by State College Extension service, to be in charge of the U. S. Military Government's agricultural production in Germany, for another year.

The request for the leave of absence was made by Brig. Gen. Hugh B. Hester, economics head of the American Zone in Germany, and announced during the week by Dr. L. O. Schaub, extension director, Raleigh.

In a letter to Dr. Schaub, General Hester said that Col. Lynn had "made a fine beginning negotiating accords with the British, French and Russian officers on a future agriculture program for Germany," adding that it would be "extremely difficult for a successor to hold the leadership in negotiating with the officers of other countries," which he said had been gained by the Tar Heel officer.

Colonel Lynn would become eligible for release from the army this spring. The general's letter stated that Col. Lynn's work in Germany is the most important that he has ever had the opportunity to do within the scope of his profession.

The former Haywood farm leader, working from Berlin headquarters, planned the rural production program for 1946 in the U. S. Zone in Germany and assisted in formulating overall German production policies.

In a recent letter from Col. Lynn in which he described the 1946 agricultural outlook in Germany as dark with fertilizer supplies at 10 per cent of normal and available farm machinery at five per cent of normal. "Don't let anyone kid you about the ability of the Russians," he wrote. "They know what they want and how to get it."

Bedtime Cleaning

A good time to clean white shoes is at bedtime. Overnight drying does the trick if they are needed for daily wear. An aid to keeping them in shape is to stuff them with tissue paper or place them on trees during cleaning and drying.

RESTING UP TO GREET GI DADDY

THE SEA DID QUITE A BIT OF kicking-up as the transport Argentina made the crossing to New York with its cargo of GI brides and babies. So little Kenneth Connolly, bound for Arlington, Mass., was too tired to care when the ship docked. Mrs. Tom Connolly, wife of a Marine sergeant, lets Kenneth sleep before meeting his daddy. Silver Tea For County Library Realized \$50

The silver tea which was given at the Haywood County library on Saturday afternoon was both a social and financial success, with approximately \$50 realized during the afternoon. The affair was sponsored by the Woman's Club in observance of the second anniversary of county-wide library service.

Receiving during the hours from 3 to 5 o'clock were Mrs. James Killian, president of the club, Col. J. Harden Howell, chairman of the County Library board, Mrs. James R. Boyd, Mrs. Frank Kinsey, Mrs. John R. Higgs, Mrs. T. L. Bramlett, and Mrs. John M. Queen, and Miss Margaret Johnston, county librarian.

The callers were greeted at the entrance by Mrs. J. Harden Howell and Mrs. T. L. Gwyn, the latter a member of the County Library board. Tea, sandwiches and cookies were served from an attractively appointed tea table, covered with a lace cloth, with service at one end and bowl of red gladioli at the other.

Mrs. R. N. Barber poured during the afternoon and she was assisted in serving by Miss Theresa Alley.

Valentine motifs were used in the library, arranged by the librarian, and holders with red tapers were placed about the rooms.

One center of attraction during the afternoon of special interest was the children's reading room, which was visited by all callers.

Despite the inclement weather a large number of persons called. The money realized at the tea will be donated to the county library by the Woman's Club and will be applied on the purchase of new books.

Airy Windows

If you've two or more grouped windows full of breezes and sunlight, don't smother them. Link one pair of full draperies with a gathered valance that spans all the windows. Then loop one pair of fluffy sheer tieback curtains gracefully, loosely back to soften the light.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feet constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

As Equipment Becomes Available More Telephones Can Be Installed

As new switchboards, cables, wire and telephones become available, we will be able to serve more and more of those who have been waiting longest for service.

To catch up on all held orders for service will require very large additions to our telephone plant.

This is a tremendous construction job that will require much time to complete even after the delivery of equipment. There are many places where we have switchboards to install, even places where we must construct new buildings or building additions to house new switchboards.

But we can say that we are on our way to furnish service to all who want it—on our way to restore Bell System standards of service and raise them even higher.
