A Challenge

The birth rewords at the Haywood County Hospital are a challenge to the Haywood county folks to make and keep our county an attractive and progressive area for these potential citizens to remain as permanent residents.

At the present rate it won't take Haywood very long to have an increase of several thousands in population. So in looking forward to the passing of a couple of decades we extend a welcome to these new comers, who some day will take their place as citizens of our county.

Final Resting Place

The government is working hard to identify all the 328,000 Americans who gave their lives overseas, and is making the same offer with reference to the burial of the menkilled in World War I. There are to be four

The body may be interred in a permanent Amedican military cemetery overseas: the body may be returned to the United States for burial in a national cemetery; it may be returned to the United States for burial in a private cemetery, with fifty dollars allowed on burial cost; or the body may be interred in the country in which now interred or may be returned to a foreign country, the homeland of the deceased for interment in a private cemetery.

While the War Department wants the families of these heroes to take the course which gives them greatest comfort, the wife of General Patton has set a fine example, in wishing her husband to be baried "where he

When one realizes that our government will keep these cemeteries overseas, where the white crosses are "row upon row." in such beautiful order, somehow it seems to us the most fitting resting place for those who gave their lives, rather than have them brought home again, and with their second burial the heart aches and suffering revived.

Bad Business

We have found ourselves passing out pretty tough sentences on the Nazis criminal trials as we have followed the court proceedings at Nuremberg, and now with the trial of War Capt. Kathleen Durant, who "ordered the surrender of everything in Kromberg Castle," including the jewels we find that we are equally as hard on our own countrywonan as we were on the Germans,

There is, however, a big difference, the tralia, the Philippines and Japan. Germans were not our responsibility, but this American woman, who has shown up with not as yet definitely lined up with either side. the same kind of greed displayed by them. In this group are Norway, Sweden, Denmark makes us turn with shame from any sense Germany, France, Switzerland, Austria, Italy, of loyalty to her.

There is no excuse for her. Even in war there are some rules of decency that one would expect a man to observe, and when it comes to a woman, well words just fail us.

It must have taken plenty of nerve, which of course Capt. Durant had to endure the looks of Mrs, Margo Von Bochmann, servant for 32 years in the Hesse family, to say nothing of the disdain of Margareta, Countess of Hesse, Princess of Prussia, and granddaughter of Queen Victoria, who stated that she was the owner of the Castle, the American had looted.

The case will go down in history as a blot womanhood. We regret our lack of symnathy for Capt. Durant in whatever judgment is handed out to her.

To College By Bus

What would the pioneers of this section have thought, say back even a hundred years ago to have read that "arrangements are made for a bus to carry students to college?"

We have been fortunate to have such a high standard college in a county next door, and now we are to have one step better. We are to have the advantages of college education and the comforts of home combined.

While it would have been a very fine thing to have had an off camous school here, we doubt if it would have been as satisfactory as transporting the students to college, where there will be standard equipment, as can be found at Western Carolina Teachers College.

Livestock Show

We may be wrong in our prediction, but we have the feeling that the 1946 Livestock and Home Arts show is going to be a record breaking one in Haywood. Our folks have had time enough since the war to get back into their civilian ways of planning.

We feel that in recollection of the fine spirit of cooperation in the events of other years, that there will be renewed interest as the revival of this annual show takes place

The cuthusiasm of Wayne Corpening, and his assistants, and of Miss Mary Margaret Smith and the other Home Demonstration agents will take our Haywood folks along to the culmination of the best show ever held in the county.

With the new features added, the event will include all phases of development in the county, and will have a universal appeal to all the Haywood citizens.

Not One - But Two

There seems to be a rising tension as the low their lead. They can take us nations of the world are forced to choose on flights of imagination. Not so sides in the drift toward not one world, but long ago lying in a hospital bed the tiny particulars get to the four tings the hour for eating in a hostwo-as present indications are lining up, with nothing to do but think about corners of a room. One part of the world seems to be led by the boring we had a most entertaining tuned in on some chereful dance United States and Britain and the other is time. Toyong one of those throb- program, hardly distinct enough to sounds, came a whisk of the stiff. High officials on the other hand everywhere. We had sympathy for happiness in its wake . The clock seem of the opinion that if the present trends continue, "the gap will become too wide to be bridged, and that the division is harden-

The new world grouping has tentatively been divided as follows: Eastern world, ledby Russia, includes neighboring countries whose policies are geared to Rusisan policies, either because of friendship, or because of the presence of Russian Armies of occupation, or because they are convinced that their existence depends on Rusisa. These countries are Finland, Poland, Czechoslovakia, Hungary, Bulgaria, Rumania, Yugoslavia and Albania in Europe and Outer Mongolia in

The Western world, led by the United States and Britain, would include the Western Hemisphere, Africa, Iceland, Spain, Portugal, Belgium, Holland, much of the Middle East, India, Burma, Malaya, the East Indies, Aus-

In between is a belt of countries that have Greece, Turkey, Iran, Afghanistan, China and Korea.

Germany is considered, according to those on the inside to be the most crucial of all areas. It is said that Russia is "wooing" the Germans in her own zone by stepping up industry, releasing German War prisoners, unfreezing life insurance and bank accounts. increasing rations for the sick and granting

women equal pay with men. We are so busy here at home trying to get over the setback of war as it interfered with our civilian way of living, that we would like to forget the rest of the world, but that we can never do again. We will have to keep on the American armed forces and American one eye glued on what they are doing across both the Atlantic and the Pacific, for whether we wish it or not the past has taught us, it is our business.
