Butterfly Beach Costume

Attractive and colorful play suit.

By VERA WINSTON

PREPARED FOR resort wear are charming outfits that are striking without being bizarre. This smart example uses a butterfly motif in a clever fashion. White linen embroidered in black, yellow and green is used for the bra and the shorts which are worn under the wrap-around flared skirt. The skirt is made of white linen and has one flared wing at the left side. It is topped and bow tied with narrow cord. The butterfly bra is a really original notion, and attractive too!
