UP—In the state of the dusty red brick VIII built as a London four centuries ago, the royal household are displaying hundreds of Elizabeth's wedding Nov. 18, 1946, and the 21-year-old royal bride's handsome form—Greece is unprecedented—will be one of the dignities of any heir to a modern throne. King George VI, who has rejected any thought of a great wedding, seems as incredible in the eyes of the House of Windsor as he was in the eyes of the House of Tudor. Elizabeth's wedding plans, which have to appeal to the Trade for additional reasons, and this is part of her honeymoon. The wedding will consist of her own clothes adapted to the occasion.

Price Of Round Steak Up 30 Cents Since End of OPA

(By United Press)

The price of round steak has risen an average of 30 cents a pound in the year since price controls were removed, a price survey in representative cities showed today.

The average increase on four selected cuts of meat—round steak, rolled rib roast, leg of lamb and T-bone steak—was about 22 cents a pound, the survey showed.

The price check was made in seven cities—New York, Pittsburgh, Detroit, Cleveland, Atlanta, Ga., Minneapolis and Columbus, O.

Price ceilings were finally and permanently removed from meat Oct. 15, 1946—a year ago today.

The survey, conducted by United Press, showed that the price of rolled rib roast advanced an average of 20 cents in the seven cities. The average price of leg of lamb increased 15 1/2 cents, and T-bone steak rose more than 24 cents a pound.

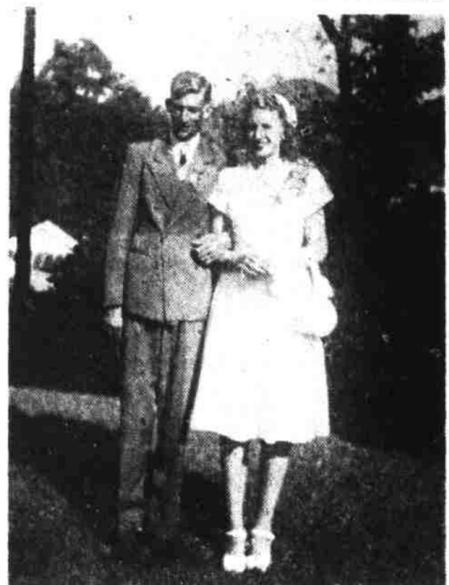

The American Meat institute, which represents the nation's meat packers, said, however, that comparisons between present prices and OPA ceiling failed to take into account the price of meat in the black market during OPA.

"You can't very well compare a hamburger at all at 27 cents a pound with hamburger which you can walk into a store and buy for 40 cents," a spokesman said.

Elizabeth's mother was born in the lesser state coaches will be used in the brief drive from Buckingham Palace along the Mall, Whitehall and to the Abbey. The route will be lined with soldiers of regiments in which Elizabeth holds honorary rank and some naval detachments because of Philip's active service in the navy.

There will be no grandstands in the streets—the Ministry of Supply curiously announced that it could not spare the manpower from the national effort. There will be no fireworks display, nor will there be dancing in the parks except as it originates spontaneously with the populace. There will, of course, be crowds in front of Buckingham Palace demanding that the couple appear on the balcony, but that is a normal procedure.

CARBON DIOXIDE IS DISCOVERED ON MARS

CAMBRIDGE, Mass. (UP)—The Harvard observatory says it has the first definite clue on what makes up the atmosphere on the planet Mars.

Harvard scientists have discovered carbon dioxide on Mars in amounts equal to or greater than the carbon dioxide on the earth.

Previously, all that was known of the atmosphere of Mars was that it contained a small amount of moisture.

The discovery of carbon dioxide was made possible by the wartime development of an infra-red photocell—a sort of super-telescope.

G.O.P. Hopfuls Eye South For 1948 Delegates

WASHINGTON (AP)—Dixie Republicans have advance notice that the presidential candidates are coming on an open hunt for support among the 200-odd delegates a dozen traditionally Democratic states will send to the 1948 GOP convention.

Harold E. Stassen announced that he is heading South in November for speeches and conferences in Little Rock, Ark., Dallas, New Orleans, Gulfport, Miss., St. Petersburg, Fla. and Orlando, Fla. His move may be matched soon by a decision by Senator Taft (R. Ohio) to travel in the same direction.

Taft Strong in South?

Taft generally is conceded strong support among the Southern delegates. Backers said he can be counted on to try to offset Stassen's attempts to break into this area, which will furnish about one-fifth of those eligible to vote on the nomination of a presidential candidate at next June's Philadelphia convention.

The Ohio senator obviously is depending on a backlog of Southern votes to help boost his total in the early balloting, where Gov. Thomas E. Dewey apparently will have the advantage of a solid 97 votes from New York plus those he claims elsewhere.

Some of Dewey's outside support lies in six midwestern states where Stassen, the only avowed candidate for the 1948 nomination, claimed yesterday he will get the backing of 100 out of 130 delegates.

Disputing this, Dewey spokesmen accused the former Minnesota governor of an attempt to show that he has a bloc of votes rivaling in size that of New York state. Taft supporters also said they believed Stassen was taking in too much territory.

Stassen listed Iowa, Minnesota, Missouri, North Dakota, South Dakota and Wisconsin as likely to give him a majority of their votes.
