

Prof. W. C. Allen Visits 99 Counties In State

W. C. Allen returned last weekend from a visit to 15 counties in Eastern Carolina. He says he completed his intention for the past six years in making the journey from Murphy to Manteo and from Cherokee to Currituck, for he did that very thing on this trip to the 15 eastern counties. There is now only one county in the state that he has not been to, and that is Tyrrell. He intended to go to Tyrrell, but

CONNIE'S ELEVEN A'S PHILADELPHIA (AP)—Connie Mack, the only manager the baseball Philadelphia Athletics have ever had organized an Athletic football team in 1962. The team included Rube Waddell in the lineup. After defeating Pittsburgh, which had christened Mathewson at fullback, Mack claimed the pro football championship of the United States because of heavy storms on the coast at the time, he feared to venture into that county.

MGM Takes Over Woman's Home For Movie

HOLLYWOOD (UP)—Mrs. W. A. Cordes, wife of a Santa Monica, Cal., architect, woke up one morning and found two movie studio men measuring her front porch with a yardstick.

It was then that Mrs. Cordes discovered she lived in the typical California home. It was so typical it was going to get in a movie.

Metro-Goldwyn-Mayer said they'd been looking for a house like mine for the movie "Act of Violence," she said. "And for the next couple of weeks we had movie men coming in and out the front door all day."

"This may or may not sound like a privilege. Anyway, the Cordes family got paid for it."

Two days before filming began, "art" experts arrived and told Mrs. Cordes her Venetian blinds were untypically ritzy. Down they came and up went cotton curtains.

"I'd been trying to get my husband to take them down for months," she said. "Now he has no excuse not to paint the place."

Electricians Helpful
Studio electricians discovered a double electrical outlet on the front porch, which they used to light the night shots of Van Heflin

and Robert Ryan. "I never found that outlet," said Mrs. Cordes, "although I've lived here 15 years."

Until the movie company arrived, Mrs. Cordes thought their garden was pretty.

"A studio green-man gave it the once-over," she said. "Then he brought in a dozen more bushes, 50 feet of hedge and four flats of flowers."

M-G-M supplied Mrs. Cordes with a collection of still pictures of the scenes in her bungalow.

"It's a big thrill," she said. "But it's rather eerie to see pictures of a strange man on the living room sofa and a strange woman cooking in my kitchen."

Mrs. Cordes said she wouldn't have missed the excitement for anything. "Confusion? Bother? It was like a tonic!"

Perambulating Church All In Day's Work

ALBANY, Ga. (UP)—Police here say they are prepared for anything now.

They got the following orders: "Call on Dawson Road county line . . . escort . . . moving a church."

The police kept unbelieving motorists from speeding to the nearest sanitarium as the house of worship was moved down the main highway and across the Flint River bridge.
