## Pines in Winter

Among the many kinds of trees in existence, very few retain their foliage during the cold winter months. Only a few withstand the driving winds and storms and still maintain beautiful green branches.

The graceful scene below shows a remarkable characteristic in the pine tree. Some miraculous element within the pine enables it to display its lush greenery amid the whiteness of fallen snow.

Such are the amazing qualities of nature—the millions of wonders in God's creation.

In order to understand more fully the God-given powers within ourselves, we must study the Holy Word and attend regularly the services of the Church. By doing this we will come to realize our potentialities and talents and will learn to live a fuller more useful life.

**HOLY BIBLE**  
**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**  
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
