Woolen and Fur

Black broadtail, trim on yellow.

By VERA WINSTON

THE FUR lined fabric coat has become an important performer in the winter fashion show, good on its own, even better when teamed up with a matching skirt to fuse into a wonderful suit. This one is of yellow woolen, a nice foil for the black American broadtail. The fur is used for the Peter Pan collar, which is finished with a fabric shoestring tie. Curved flap pockets are placed on fur shields, for a pretty touch. The coat is the popular five-eighths length and is generously flared in back and is easy to wear over a suit.
