

Control Demonstrations For May 20

Control demonstrations will be staged Saturday afternoon by county farmers. Agent Wayne Corpena announced this morning the demonstrations will be held at the pre-emergence stage of the soil. "Pre-emergence" treatment is the spraying of a spray to the land before the corn is planted, for instance, so that the corn comes up. Thus the weeds are killed as they start to grow on the top of the ground. The demonstrations will be held at the farm of Warren C. Shaw, N. College Extension weed control demonstration.

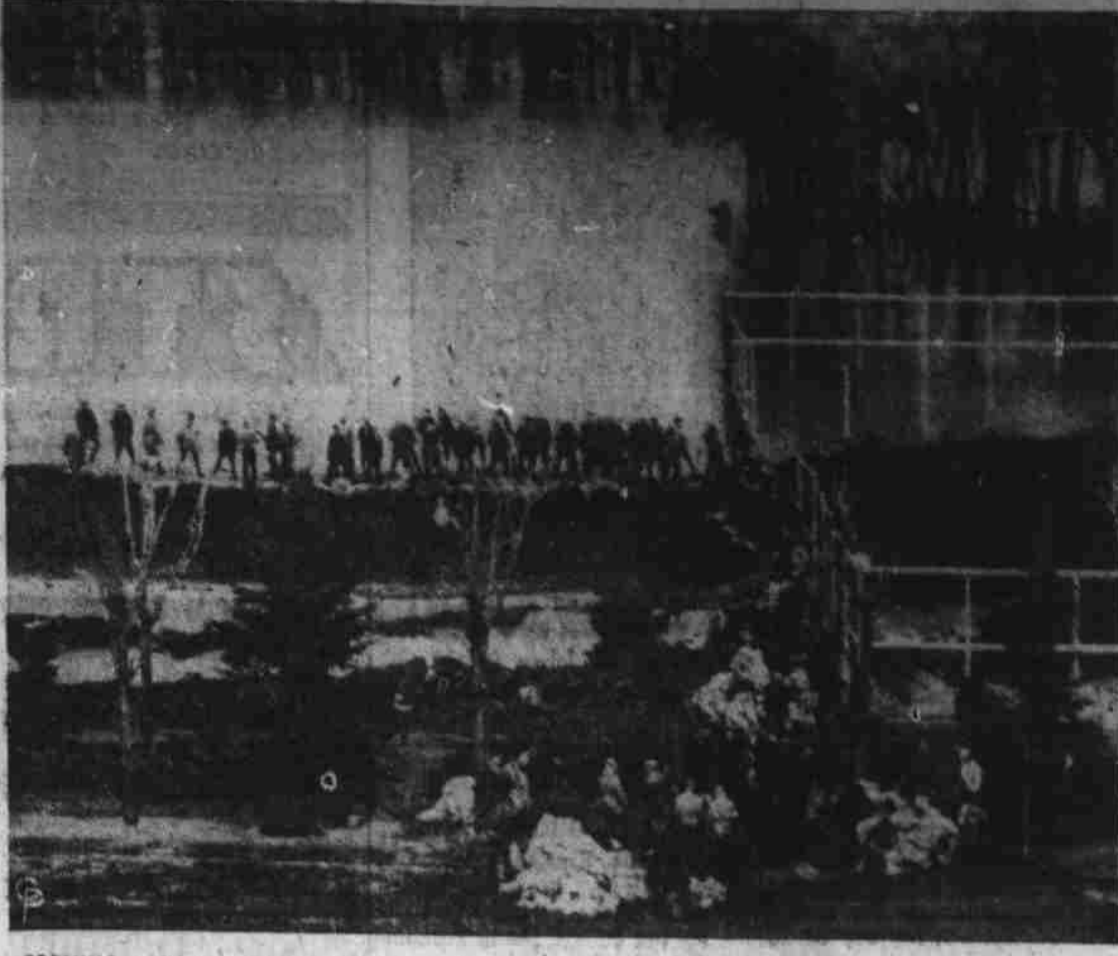

Schedule:
 10 a. m. Grady Howell's farm, 10:30 a. m. farm of W. C. Shaw, Jr., Crabtree; 11:30 a. m. A. J. McCracken's, 12:30 p. m. George E. Pigeon.

PAPER BOY NO BOY

WILMINGTON (UP) — One of the oldest paper boys in the state is carrying a two-mile route in Wilmington. Miss Shingle, 65, has carried the route on foot for two years, about two miles a day with another five miles a day.

When two or more metals are mixed together the resulting product is called an alloy.

VOLUNTEERS STRUGGLE TO SAVE WINNIPEG DIKE

FORMING A HUMAN CHAIN, volunteer workers struggle desperately to strengthen a dike near St. Boniface Sanatorium in flood-menaced Winnipeg, Canada. Patients were removed as the rampaging Red River threatened to totally isolate the Canadian grain center. Warnings were issued that sagging dikes might break "at any moment" and send a 12-foot wall of water over five new areas of the city. (International Soundphoto)

FISH
 You'll be interested in seeing the 40 articles on "Something That Fishes Do and That Are Done to Them", given by Dr. E. W. Gudger. When I first came to Waynesville and discovered nothing by Dr. Gudger (our own authority on fish) I asked him to send us some of his work. Since most of his writings have been treatises in many scientific publications he has spent considerable time in collecting these articles and having them bound for us.

They are written in a popular readable style with many nice illustrations. If you like them Dr. Gudger will prepare another similar volume for us.

Here are some of the articles you will find:

The Puffer Fishes and some interesting uses of their skins.

Notes on the Behavior of the Grey Snapper, a common West Indian Fish.

Spiders as Fishermen and Hunters.

Nest and Nesting Habits of the Butterfish or Gunnel.

Fishing with the Otter.

Fishes that live in the mouths or gill cavities of other fishes.

How the Cassowary Goes A-Fishing.

Cannibalism Among the Sharks and Rays.

Animal Associations—The Living Together of Fishes and Other Animals.

Animal Carts — How Marmots, Badgers and Beavers Serve as Sleds or Wagons.

The Rarest of the Ocean Sunfishes.

Open Ocean and Coastal Sharks: Do They Attack Men?

Beginnings of Fish Teratology, 1855-1842.

Fooling the Fishes.

Will Sharks Attack Human Beings?

An Albin Tarpon.

Lake Junaluska Plans New Community Projects

By Mrs. Hurst Burgin (Mountaineer Correspondent)

Lake Junaluska's residents in a busy session Monday night made plans for a membership drive, road beautification, and spring cleanup campaigns.

Z. L. Massie, the community chairman, during the Community Development Program meeting at Lake Junaluska School, named committees to push the work on the various projects.

At the same time, the chairmen of other special committees reported progress being made on the erection of road signs, building of mail boxes, and other community projects.

One of the new projects tentatively planned at the session was for the beautification of the section of the Soco Gap highway lying within the community boundaries.

Further details for this area to be worked out at a later meeting. For the spring and cleanup campaign, local orchard men have offered the use of sprays, and the residents also will develop the plans for this project further at the next session, scheduled for the night of May 30.

In the membership contest, the residents of the western section of the community will form a team with the residents of the eastern section.

The winning team will be entertained by the loser. Mr. Massie appointed these special committees during the meeting: Program—Mrs. Carey McCracken, chairman; Mrs. Hilliard Moody,

1,000-Year-Old Skeleton Of U. S. Indians Found

CARBONDALE, Ill. (UP)—Two amateur diggers have uncovered a rare archaeological find, including 11 Hopewell Indian skeletons, 1,000 years old, in a mound near the Wabash River.

The mound was found by Arkel Fischer, Carmi, Ill., high school athletic director, and Norbert Bingman, Carmi merchant.

They turned the discovery over to Southern Illinois University. Irvin Peitman, archaeology curator of the university, said the discovery increases the knowledge of Hopewell Indian migration. He said Hopewell remains were found in Ohio about 40 years ago.

Chicago Gun Toter Exiled by Court

CHICAGO (UP)—Vacuine Melendez, 33-year-old busboy, will be a "man without a city," so far as Chicago is concerned for three years because he fired a gun into a crowded Chicago tavern.

Melendez pleaded guilty to a charge of assault with a deadly weapon and was sentenced to three months in jail and put on probation for three years.

As a condition of the probation, Criminal Court Judge Samuel Epstein ordered Melendez to stay at least 100 miles from Chicago at all times.

Long-Lost Watch Returns 50 Years Later

JOHNSTOWN, Pa. (UP) — You can't keep a good watch down, especially the large, gold and engraved timekeepers that were treasured by the fashionable back before the turn of the century.

George Varner of Johnstown was given a gold pocket watch in 1892, a birthday gift from his father and engraved with his name. A few years later, the watch was lost.

Varner later moved to Los Angeles and died in 1937, but before he died he relayed his confidence in the watch to his two sons, Clarence and Frank.

"It will turn up some time," he told them. And turn up it did. Workmen found it while clearing land at Grandview cemetery in the Johnstown district.

A man with experience, and training. He deserves re-election

C. H. LEATHERWOOD

VOTE FOR
FRED Y. CAMPBELL
 FOR
SHERIFF

A man qualified physically and educationally to serve in this capacity. A country boy—honest and hard working, who runs strictly on his own merit, without the backing of any political "Ring" or "Faction."

Remember —

Campbell Is Qualified

Campbell is a Mason, Elk, Member of V.F.W. and American Legion, Boy Scout Counsellor and attends Church and Sunday School regularly. The high ideals of these units are the ideals by which he will be governed in the administration of the Office of Sheriff.

NOMINATE CAMPBELL

If you have any doubt as to Campbell's qualifications—ask those with whom he worked as Champion; those with whom he served in the Army; those with whom he worked under Civil Service in the Post Office; or those with whom he has been associated in farming in Haywood.
