HOMES FOR AMERICANS

PLAN AB-132

AP Newsfeatures

A NORTHWESTERN PLAN—This house designed by Thomas, Grainger & Baar, architects, Arcade Bldg., Seattle 1, Wash., is especially suited to a narrow lot. A full basement provides for a recreation room with a second fireplace. Combination living-dining room provides an unbroken sweep of more than 30 feet. This was selected as Plan AB-132 by the American Builder, trade magazine, 30 Church St., New York 7, N. Y., for its economy of space utilization. Without garage, the house covers an area of 1,140 square feet.

Frank Taylor Is Still In Race For House Speaker

Frank Taylor, veteran Wayne County legislator who on May 27 received nearly twice as many votes for the Legislature as his two opponents combined, is "definitely not withdrawing as a candidate for Speaker of the House in the 1951 Legislature".

Chairman of the important Appropriations Committee in 1949, Taylor is opposed by Fred Royster of Vance County, who had no opposition in the Primary.

"I will not withdraw now or later", said Taylor in a special telephone conversation from Goldsboro Saturday evening with a representative of this paper. He thus nailed with a flat statement the talk that he might get out of the contest.

Plain talk is urgently needed today on a matter that affects the pocketbooks of all taxpayers . . . subsidies to commercial intercity transportation agencies that long ago outgrew the infant industry stage.

The yearly expenditures of the Federal Government alone . . . for aid to forms of transportation other than the railroads . . . now approach \$1½ billion. These are your tax dollars—and ours. They help provide the highways used by huge commercial trucks, the airports and other facilities used by commercial airlines, and the waterways used by waterway carriers.

In contrast, the railroads do not receive, and do not want, one single penny of subsidy. They are self-supporting. They pay more than \$1 billion a year in taxes. And their charges reflect their true costs of doing business.

We think it's time to call a spade a spade . . . time to point out that these subsidized carriers can destroy but not supplant the self-reliant railroads . . . time to urge that simple justice be done for the good of all America and all taxpayers.
