

President To Visit This Area On Parkway Program

Dependant Time Of Press Quitting

WASHINGTON (AP)—President Truman plans to dedicate the Parkway of North Carolina this year.

Doughton (D-NC) revealed White House conference President promised "unusually" to go to North Carolina on the Parkway program.

Browning of Raleigh, chairman for the event, said after the conference plans call for the President to drive down from Roanoke, Va., to the Parkway and then drive on to Asheville.

Forecasts are for adjournment next day.

At one point, Water Rock (in Haywood County), the highway will take travelers 6,292 feet above sea level.

All top officials of North Carolina and Virginia are expected to attend the formal opening, including Governors Kerr Scott of North Carolina, and John S. Battle of Virginia.

Delegations of the two states in Congress, Secretary of the Interior Chapman and other federal officials also are expected to be there.

Although the parkway is not to be completed for a few years, Congress has been asked to vote \$12,500,000 at once to finish all but a by-pass at Roanoke.

PRESIDENT TRUMAN

Waynesville Man Installing New 'Haymaker'

Robert Underwood, Pat Dairy worker, is going to throw his pitch fork away.

Mr. Underwood is streamlining his job of feeding the cattle on his East Waynesville farm.

He's installing a new steel "cattle cafeteria" that he recently bought from the Martin Steel Products Company of Mansfield, Ohio.

The purchase was made through the firm's western North Carolina agent, Bynum A. Buff of Rutherford.

The cylindrical structure, known as a "haymaker," is about 21 feet in diameter and 22 feet high.

Mr. Buff explained that the farmer blows his chopped hay into it. After the hay is cured in the structure, the cattle feed directly from openings in the bottom of the tower.

He reports that the haymaker Mr. Underwood bought is the first of its kind sold in the entire area west of Burke County.

Mr. Buff covers 24 counties of the western section.

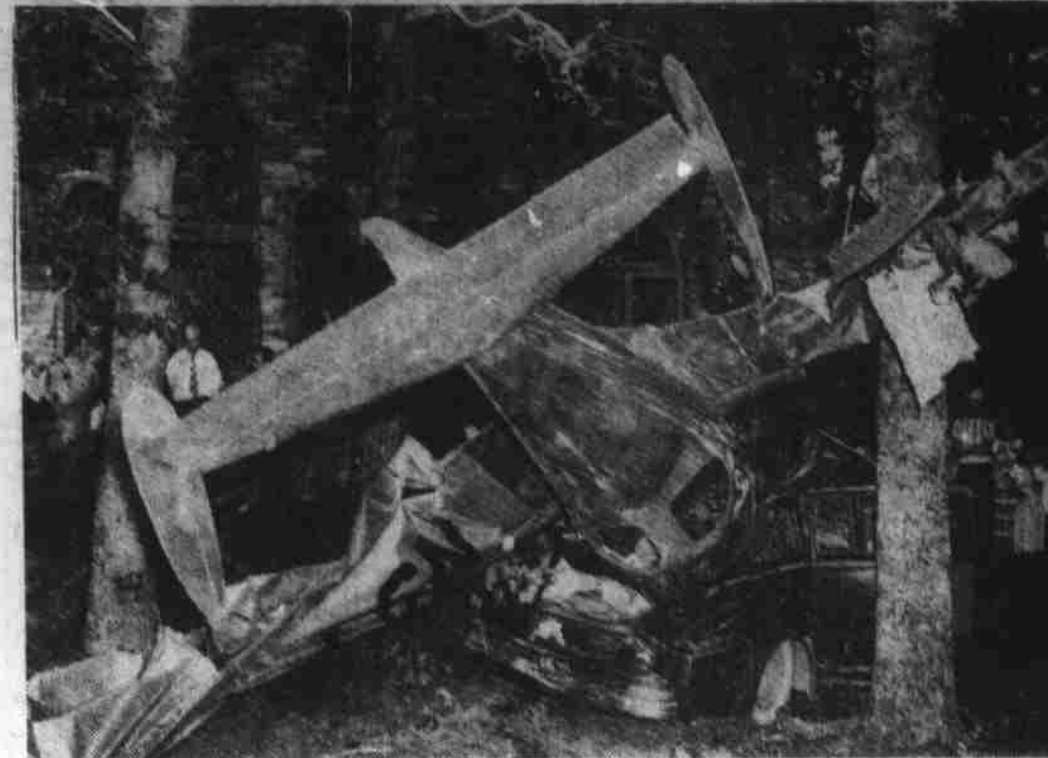

Cannery Workshop At Fines Creek Deferred

The work shop originally scheduled for June 26-27 at the new Fines Creek cannery, has been postponed.

A new date will be announced later. Mrs. Rufus Siler, supervisor of the Haywood County school lunchroom program, announced today.

The Cleveland Browns drew 1-298,468 fans to their games during four years of All-American Conference football play.

Plane Crashes Auto And Wrecks Beside Church

Piled up beside the Presbyterian church at Crossnore, is the wreckage of a private plane which crashed just as the congregation was leaving Sunday service. The falling ship hit an automobile parked beside the church and wrecked it. The pilot, Winifred "Wimpy" Holloway, suffered facial bruises. Obie Johnson, a church attendant, had his ear clipped by the plane's wing. No one else was hurt. "I guess the good Lord was with me," said Holloway whose engine quit at 5,000 feet up. "I prayed all the way down." (AP Photo).

Local Guardsmen To Hold Chicken Dinner Friday

The officers and enlisted men of the Waynesville Heavy Tank Company, N. C. National Guard, will get together at 8 p.m. Friday for a chicken dinner at Patrick's Cafeteria.

This is by way of a final "blow-out" before the hard times ahead: they're scheduled to start two weeks of intensive training at Fort Jackson, S. C., July 2.

Capt. Sam Carswell, the company commander, will be master of ceremonies.

Meanwhile, National Guard officials issued a plea to all employers to release for the annual encampment their workers who are members of the Guard.

Village Smithy's Just A Gal

BETTY CRAIG, 27, manager of the El Rancho stables at Las Vegas, Nev., is her own blacksmith. She knows horses, having grown up on a ranch and having trained horses for the Army at Tucson. During the war she was a flier in the WASPs. But handling horses helped her pay her way through the University of Arizona.

Lake Junaluska Plans Are Announced

Plans are to have a movie, "A Letter To Three Wives," at the Lake Thursday night at eight o'clock in the Auditorium.

For Friday they have the Bob Brown Science Circus scheduled.

Dwarf fruit trees are becoming more widely accepted because they take up less space and make the job of gathering ripe fruit much simpler.

Taste, Not Appearance, Appeals In Bread

ITHACA, N. Y. (UP)—It doesn't matter how enticing a loaf of bread may appear to the eye. People still look for flavor, rather than appearance and texture.

That holds true even if the bread is yellowish in color because of being triple-enriched, a study made at Cornell University during the 1950 farm and home week celebration indicated.

More than 2,000 persons were temporary guinea pigs in a second finding that showed consumers are likely to prefer the home-style loaf to spongy, fluff-textured baker's bread. A large majority voted for the yellowish triple-enriched bread, almost solely on the basis of taste.

Veteran Champion Workers To Hold Outing Saturday

A fast-moving recreation program featuring everything from guessing contests to archery will highlight Champion's 10-year continuous service group party at Camp Hope, on Saturday, June 24.

Detailed plans have been completed for the annual affair which promises to attract more than 300 of the 403 eligible Champion employees.

Reuben B. Robertson, president of the Champion Paper and Fibre Company, will be host for the occasion and will address the group during the after-dinner program.

Reuben B. Robertson Jr., executive vice president of the company, and Dwight J. Thomson, vice president in charge of industrial and public relations are also scheduled to attend.

Barbecued beef will feature the early evening menu which is scheduled to follow one of the most extensive recreational programs ever offered at a Champion employees' party.

Plans for the event are being supervised by J. Bruce Morford, Canton division manager of industrial and community relations, assisted by staff members.

H. A. Helder, Canton division manager, will give the address of welcome to the 59 incoming club members who during the past year completed 10 years of unbroken Champion service.

COP'S SKIMMER PINCHED

RICHMOND, Va. (UP)—W. B. Gist, policeman, admits you'll meet all kinds of people in a police court. He is looking for the person who stole his brand new fedora when he came to court on his day off to testify against a suspect.

Great Thunder!

Until the glass industry perfected methods for making stronger containers, low atmospheric pressure during thunderstorms frequently caused champagne bottles to burst.

Triple-enriched bread is being "pushed" by Cornell nutritionists because of its food values. Recently, some 650 New York City elementary schools began serving this type of bread to children.

HEIRS CARVE IT UP

PROVIDENCE, R. I. (UP)—A \$400,000 estate was divided by lot here. Morgan Murphy's estate was divided into five parcels of equal value. The five heirs then drew numbered cards from a hat.
