

Musical With Cast Of Over 150 Local People To Be Given July 20-21

east of more than 150 Waynesville men, women, and children...

concentrating on productions in north Carolina. Mrs. Bergmann, a native Texan...

She later took post-graduate work at the Steinfeld College of Music in San Antonio...

Her work in dramatics also includes four years' service as director in charge of the music and dramatic departments of Ursuline Academy in Lareb, Texas...

She also served eight years as choir director of the First Methodist Churches of Laredo and Pharr...

Mrs. Bergmann is production director of "Trippin' Around," and is in charge of training the cast and choruses.

Educated at Culver Military Academy in Indiana, McBurney's Boy's School and Dwight School for Boys...

He's the son of Dr. and Mrs. F. W. Bergmann, Sr., of Asheville. The Bergmanns' first production of "Trippin' Around" was unveiled in Black Mountain last April...

The "friendliest family," and the champion are selected by popular vote. The winners are announced and rewarded during the show.

To stage the production, the Bergmanns brought to Waynesville some \$2,000 worth of colorful costumes and equipment.

Singing and dancing will be the featured cap chorus, made up of high school girls, the Starlet chorus of young businesswomen, Darktown strutters, comprising young mothers, and Niagara Falls chorus, consisting of high school students, all performing in costume.

In addition to this, there will be singing performances by children selected from the community.

The Bergmanns, who come here well recommended (by the editor of the Black Mountain News, among others), both are members of the Asheville Chamber of Commerce.

Last January rounded out six years of their work in training local casts for the production of some-talent benefit shows.

These were staged for clubs and other organizations throughout the nation, though right now they are

Trains For Channel

"WHO'S AFRAID OF THE English Channel?" asks Russell Tongay, 4 1/2, as his baby sister greases him up for a workout at Miami Beach, Fla. The phenomenal water baby recently swam 22 miles down the Mississippi River and will attempt the Channel swim. (International)

Science Builds New Face For Burned Child

TULSA, Okla. (UP) — Medical science is building a new face for 11-year-old Wanda Lee Horton.

Her doctors say that three years and some 100 operations from now she should have the appearance of a normal teen-ager.

Last November doctors didn't think she would live. Two members of her family were burned to death and three were critically injured in the family home near Sand Springs, Okla.

Wanda was carried out of the flaming house with burns covering 40 per cent of her body. Two of her fingers were burned off and her face was marred beyond recognition.

At first doctors fought to save her life. Her strong will to live finally turned the tide. Then they turned to functional surgery to help heal her wounds.

Eyes Sewed Together Skin was grafted over her worst burns and her eyelids were sewn together to insure sufficient flesh to cover her eyes. For seven months she could see only a pinpoint of light.

While her scars healed, doctors worked to restore the use of her lips and neck and to bring normal movement back to her twisted hands. That work is still going on.

Last month a surgeon re-opened her eyes and lengthened the skin on her neck with several operations. Another operation pulled her lower lip back into place and Wanda is finding life a little easier.

But there's a long road ahead. Surgeons must remove scar tissue, section by section, and replace it with new skin. New hair will be grafted on parts of her head, her eyes must be widened and other parts of her face rebuilt.

Operations Painful Each operation is painful and each must be followed by days of recuperation in bed before the next one can be attempted.

But Wanda has developed a goal that steels her against the pain. She takes a picture of herself taken before the fire and tells visitors that her doctor is working to make her look like that again.

She's one of the favorite patients at St. John's hospital and nurses say they've never seen her when she wasn't cheerful.

She'll be starting back to school this fall, with time out for operations.

don't DO that!

DON'T SPOIL HOLIDAY FUN. Take proper precautions against sunburn and have a happier vacation.

THE YOUNGER SET

By ANNE BISCHOFF High School Senior

By CAROLYN SAYER (Guest Columnist) High School Junior

Last week a group of twenty-six Girl Scouts had a glorious week at the Canton Y.M.C.A. Camp Hope.

Each day started with the ringing of a get-up bell at 7:30. Breakfast was served at 8:00. Afterwards everyone had time to clean their cabin and do campers before inspection. After inspection and the nearest cabin awarded a star, we had tennis, archery, and swimming.

Then came lunch, and after a well filled morning of activity everyone was ready for it. After lunch we had rest hour, arts and crafts, nature study and swimming. We also had some free time each day.

Several times everyone enjoyed a supper hike. Eating out of doors after a short hike was loads of fun. And speaking of fun, everyone enjoyed the square dances that were the entertainment for two of the nights there. On another night a "sniper" hunt was enjoyed by all.

Lights out at 9:30 was one of the rules. So each night before that time everyone gathered at the Council Ring and sang songs.

Our councillors came around each night to say good night and see if there was anything we needed. Everyone felt that there were no councillors that could begin to

compare with ours. Campers were not supposed to call them by their first names, so for Betty Gene Alley we called her "B. G.", Charline Rotha, "Chickie," and Alice Fincher, none other than "Robin". Miss Fincher taught nature study and Bill Whitesides is in charge of the camp for the summer.

Last Saturday night a group of girls gave a party at the home of Billy Kitchen, and usually when a group like that gets together everyone has more fun than a barrel of monkeys.

Several games were played for the enjoyment of all, but the highlight of the party was a scavenger hunt. To win the prize you had to get everything from a hair from a cow's tail to a blown out egg.

Those attending were: Shirley Mae Connatser, Charlotte Hamilton, Bobby Tipton, Billy Kitchen, Jo Ann Rowe, Helen Garrett, Mary Crouser, Don Calhoun, Linton Palmer, Bobby Setzer, Ped Carswell, Bud Buchannan, Alton Boone, Roger Woodard, Carroll Swanger, Terry Swanger, Perk Fugate, Billy Whitner, and Krut Kuykendall.

Back to Nature Dripping ems in the 16th century were frequently made in the shape of birds, animals, and other figures, and were fashioned from gold, silver and wood.

RIVAL PLANES IN KOREA

AP Newsfeatures

THE SUPERIORITY of U. S. aircraft was demonstrated early in the Korean crisis. American transport planes were helping to evacuate 2,000 persons, including members of the United Nations Commission on Korea, American civilians and military dependents, when they were attacked by enemy planes. U. S. Fighter planes went into action and were reported to have shot down several Russian-made North Korean Yak fighters without a loss to Americans. A reason for this quick success may be found in the adjoining comparison of the outstanding differences between American and Russian fighters, at least those used by the North Koreans in the early fighting.

THE RUSSIAN YAK fighter used by North Korean Reds has these specifications: Gross Weight 7,500 pounds, Wing Span 32 feet, 10 inches, Length 27 feet, 10 inches, Top Speed 440 miles per hour, Maximum Range 850 miles, Maximum Ceiling 36,000 feet, Armament 20 mm. Nose Gun Plus Two 12.7 mm. Guns or 37 mm. Nose Gun and One 12.7 mm. Liquid-Cooled Piston Engine with 1,310 Horsepower

THE SHOOTING STAR F-80, American Jet fighter meets these specifications: Gross Weight 9,600 pounds, Wing Span 39 feet, Length 34 feet, 6 inches, Top Speed 600 miles per hour, Maximum Range 1,200 miles, Maximum Ceiling 45,000 feet, Armament Six .50 Caliber Guns Plus Two 1,000-pound Bombs or Ten Rockets, Engines Turbojet J-33 with 4,600 pounds Thrust

Husband Ill, Local Woman Stricken at Father's Funeral

Misfortune and tragedy struck Mrs. Henry Kragg of 104 Hill St., Waynesville in rapid succession recently.

She was called to St. Petersburg, Fla., first when her husband became seriously ill.

While she was by her husband's side, she received another message, sending her to Beaufort Hospital at Beaufort, S. C.

The message told her of the death of her father, Gus Sanders.

While she was attending his funeral, Mrs. Kragg herself became ill and was still under treatment at the Beaufort Hospital late last week.
