**LABOR DAY**

... dedicated to the men and women of the United States—whose working hands—provide our food, our clothing, our shelter . . . serve us in offices and shops . . . till the soil —

... dedicated, too, to the principles of freedom and democracy they have worked and fought for . . . the high standard of living they have achieved and maintained . . . the prosperity that is and will be theirs, and ours, as long as there is free American Labor!
