Mrs. Turpin frankly admits that life is not as exciting as it was when she was trying to rate bylines and headlines. She does admit that sitting on the sidelines is proving interesting, even with the rush of two hard months at Lake Junaluska,

She was requested to give the "low-down" on her retirement and with that sly smile, said softly; "I think this is my last summer covering the news at sake Junaluskabut who knows?"

Labor Day - 1950

Once a year on Labor Day we bring our thoughts

back from the pleasure we derive from our material possessions, from our appliances, tools and other work-saving, leisure-providing purchases, to remember the men who made them . . . the mechanic, the carpenter, the bricklayer, the skilled, and unskilled worker. All these and thousands more are busy throughout the year helping to create the vast wealth for which our century is justly famous. To these men and women we offer an appreciative "thank you" on this Labor Day.
