Burge Gives "Loop" Instruction

NEW YORK — (AP) — Six "loop" instruction films (16 mm) showing tennis strokes demonstrated by Don Budge have been prepared by Russell H. Kettel of the Middlesex School, Concord, Mass.

Each loop film shows one stroke in slow motion. They are service, forehand, backhand drive, forehand volley, backhand volley and overhead smash. Each film being a continuous loop, a stroke may be shown over and over again.

The loop film idea is being used by English coaches and it may become one of the standard methods of tennis coaching in this country, too.
