National 4-H Club Week will be observed throughout the United States during the period March 3 to 11, according to L. R. Harrill, 4-H leader for the State College Extension.

The 1951 theme, "Working Together for World Understanding," will be stressed in all special activities to be held during the week.

Accomplishments of the nation's club members last year set a new record, with 77.8 per cent completing projects in farming or home-making, says Harrill.

Club boys and girls produced 100,000 acres of garden, raised 9,000,000 chickens, and 1,000,000 head of livestock, grew 900,000 acres of food crops, and canned 16,000,000 quarts of fruits and vegetables. They made their home more attractive and livable by improving 650,000 rooms, making 350,000 arts and crafts articles, beautifying the grounds of 120,000 homes, making 2,200,000 articles of clothing, and planning, preparing, and serving 29,000,000 meals.

Pfc. Milford R. Scruggs Wounded In Korea

Word has just been received by Lee Scruggs of Waynesville that his son, Pfc. Milford R. Scruggs, was slightly wounded in action in Korea on February 5.

Pfc. Scruggs re-enlisted in the service in August, 1950, and after being in Fort Dix, N. J., and Fort Lewis, Washington, was assigned to Korea about a month ago.

He is a veteran of World War II, having seen service from January 1940, till the end of the war. He was previously wounded during action in the Normandy invasion.

Personal achievement records, 510,000 participated in fire and accident prevention, 360,000 conducted soil and wildlife conservation practices, and 150,000 carried out forestry projects.

Nearly three-quarters of a million 4-H'ers carried on special health activities, and 300,000 had periodic health examinations. Many served as junior project leaders, conducted recreational activities, and served their clubs and communities in other ways.

Anthrax, "Q" fever, rabies and tularemia are only a few of the diseases suffered by both men and animals.

Mental Hygiene Workshop Set For March 5th To 7th

Better relations between parents and children is the theme of the Mental Hygiene Workshop to be held on March 5, 6 and 7 at the Waynesville High auditorium. The Haywood County Health Department and the county school system are sponsoring the project for the benefit of teachers and interested parents.

The Workshop will be conducted by Dr. Robert M. Fink, consultant in mental hygiene with the School-Health Coordinating Unit of the State Department of Public Instruction and the State Board of Health. Dr. Fink will lead discussions of problems pertaining to the guidance and rearing of children and adolescents. He will show films dramatizing incidents in such problems. Burley Quotas For 1951 Might Get An Increase Over '51

WASHINGTON—AP—Secretary Brannan said the agriculture department may increase 1951 pro-

duction and marketing quotas for burley and flue-cured types of tobacco.

These tobaccos are being grown under rigid marketing quotas which penalize excess sales.

Brannan said the department is reviewing the tobacco situation to determine whether the defense

program makes it advisable to allow more to be produced. Interested persons were asked to submit their views by February 24.

It was reported that the department has in mind a five per cent increase for each of these two types.

The 1951 national marketing quo-

tas had previously been set at 900,000 pounds for burley and 235,000,000 for flue-cured.

The number of acres registered in the United States rose nine per cent between 1950 and 1951 to 48,484,000.
