WTHS Sparkplug

BOBBY KUYKENDALL

Mountaineer forward, Bobby Kuykendall, who holds the honor of being the only sophomore to make the varsity basketball squad this year, has racked up a total of 146 points to help spark his team's victories.

Bobby, who stands only about 5' 5", is the player who seems to always be just "taking the ball away" from the other team.

He is outstanding on defense, and also on rebounds, in spite of the disadvantage of his height.

Bobby is the life of a ball game as well as a player in it. He is constantly smiling and joking with his teammates.

The fans will probably see a lot more action from Bobby in the next two years.

According to legend, the island of Cheju off the coast of Korea was once inhabited entirely by women, men being permitted to land there only once a year and take away with them all boys who had reached the age of 13.
