

### Congressmen To Study Mineral Resources In This Part Of The State

A meeting to promote mining and minerals in North Carolina will be held in the Buncombe County Courthouse at Asheville on Monday, April 16 at 10:00 a.m., with Congressman Monroe M. Redden presiding. Members of the U. S. House of Representatives' Sub-Committee on Mines and Mining and representatives of the Defense Minerals Administration will attend. Members of the U. S. Bureau of Mines and the U. S. Geological Survey of the Department of the Interior, who jointly constitute the Minerals Division for region seven, the Southeastern states, will attend.

According to Congressman Redden, the Federal Government has been authorized by recent legislation to assist in mineral development by granting subsidies and making loans for enlarging present mining operations and for new developments. Studies of mining possibilities in a given area may be made by governmental geologists and engineers or funds may be granted for providing studies and investigations. Emphasis is being placed on developments and expansions by industry.

The purpose of this meeting is to make available to the public in general and especially to persons interested in minerals, mines and mining all available information on the proposed program.

It is believed that such a meeting will stimulate the mineral industry in North Carolina by bringing information which will open new fields and encourage the mining industry of the region. Emphasis will be placed on the strategic importance of minerals in the present emergency.

All persons interested in minerals and mining in this section are cordially invited and encouraged to attend.

### Mt. Olive Sets Dinner

A spaghetti and chicken dinner for the benefit of the Mount Olive Baptist Church will be served this Friday evening, April 13, at the church. The Mount Olive League Club is sponsoring the dinner, which will begin at 6:30 p.m.

Located on Pigeon Street, Waynesville, Mount Olive is one of the few churches for colored people in Haywood County.

Herzegovina, in Yugoslavia, is estimated to have one-fifth of the world's known bauxite aluminum ore, according to the National Geographic Society.

### MORE ABOUT MacArthur

(Continued from Page 1)

should not go against the announced policy of the President of the United States and of the United Nations."

Ernest Edwards: "It is most regrettable that General MacArthur had to be dismissed following his apparent disregard of the orders of his superiors. However, with the confusion and complete misunderstanding that Mr. Truman and our State Department have shown with reference to our foreign policy, Gen. MacArthur cannot help being somewhat in doubt as to what is expected of him."

Mrs. Doyle Alley: "I feel that Gen. MacArthur's discharge is a mistake and can only be accepted as another sacrifice in the tragic experiences of the Korean War. Surely there must be a better reward for a great general who, with his hands tied and his forces outnumbered, carried on with casualties mounting, while the Powers in Washington deliberated. If policies are endangered today by his being in command, they were endangered the day he was put in command. Who made the mistake?"

of mystery and evil for hundreds of years. No Halloween witch is complete without her black cat, and during the Middle Ages witches were supposed to be able to transform themselves into black cats to attend their satanic rites. So tomorrow don't walk under any ladders, and don't have thirteen at your dinner table, and don't let a black cat cross your path—and at midnight you can draw a deep breath and cross your fingers that nothing bad happens before Friday, July 13. After that you can ride your luck for the rest of the year.

members and their dependents. There is no age limit for either heads of families or their dependents. Instead of a separate policy for each person or family covered, there is to be one master policy for the entire county. Individual members will receive certificates and identification cards.

The Haywood County Medical Society has approved the program, and a majority of its members have agreed to participate.

### Ike's Naval Deputy

Vice Adm. Georges Le Monnier

VICE ADMIRAL Andre Georges Le Monnier (above) has been appointed by Gen. Dwight Eisenhower, Supreme Commander of the Western Europe defense forces, as his deputy for Allied Naval forces. The appointee is Chief of Staff of the French Navy (International)

### MORE ABOUT Tax Bill

(Continued from page 1)

county commissioners.

The last revaluation was made two years ago, when the board made a "horizontal raise" of five per cent. This meant that all valuations were raised five per cent over the previous year. Under a general revision, and revaluation, there would not necessarily be a flat, or fixed percentage of raising or lowering of existing valuations.

Rep. Yates also has introduced a bill which will give the Town of Waynesville authority to extend its water lines and sell water outside the town limits.

The bill would permit the town board of aldermen to "manage said water lines, and collect water rents on such terms, and in such manner as the officials may determine, and in particular Lake Junaluska Assembly, Inc."

Mayor J. H. Way, Jr., said the plan of the Town of Waynesville serving Lake Junaluska is under consideration by the town officials. The Lake is furnished water from the Waynesville system, but maintain the lines and collect the water rents.

The bill was requested by the Waynesville Board, in the event final details are completed with the Assembly.

### TELEPHONING HAZARDOUS

MEMPHIS, Tenn. (UPI) — Mrs. John Ayers broke her arm talking on the telephone. She explained: "I was talking on the telephone, slinging my arms around gesturing, and hit the corner of a desk."

### MORE ABOUT Board

(Continued from Page 1)

which was introduced in the Saturday session by Senator Medford. The bill has passed the Senate, and Rep. Yates said he felt confident it would clear the House calendar committee.

Excerpts from the committee's report on the matter, as follows: "The conference committee finds as a fact that Jarvis R. Caldwell and Cauley Rogers have not been voted on by the people of Haywood County, and after Mr. Yates announced that he was adding additional names to the Board of Education of Haywood County, the Democratic Executive Committee of Haywood County met after due notice to all members and passed a resolution requesting that the Board of Education be left at three members for the present term, and that a law be passed providing for the election of a five-member Board of Education, to be voted on in the next primary election in Haywood County, and that said Board of Education of Haywood County be set up in districts so that all sections of the county would be certain of representation on the Board of Education."

"The conference committee further finds as a fact that Senator Medford has introduced and secured the passage by the Senate of a bill providing for five members of the Board of Education of Haywood County, the members to be voted on in the next primary election held therein in 1952, in accordance with the resolution adopted by the Democratic Executive Committee of said county.

"Recommendation: The conference on the part of the House and Senate, after careful study of the facts, the law as it now applies to Haywood County, (a 1925 law set membership at 3), the action of the Democratic Executive Committee of said county, do recommend that the House recede from the appointment of two members to the Board of Education of Haywood County by Representative Yates, and that those persons heretofore certified as being nominated in the primary of Haywood County in 1950 as members of the Board of Education of said county; namely, J. Letch Worley, James W. Killian and Coleman R. Francis, be and they shall constitute the members of the Board of Education of Haywood County for a term of two years."

"It was unanimously voted."

Members of the committee were: Lee Whitmire, Hendersonville; Craig Ramsey, Salisbury; and M. Carr, Duplin county; River D. Johnson, also of Duplin, and J. C. Eagles, of Wilson.

The three-member board of education, will meet as soon as formal notice is received from the Secretary of State of the approval by the Assembly. The board will name a chairman at their first meeting, to succeed R. T. Messer, who did not seek re-election.

Yugoslavia has six provinces, or "people's republics."

### At Clyde Club

HUGH MONTEITH, district governor of Lions International, will be the speaker at the Clyde Lions Club Friday night, 6:30 o'clock.

showers, which with the completion of the work now underway, will provide adequate classroom space.

Patton-Like Beaverdam is in process of renovation and enlargement, and adequate provision for health and physical education is recommended.

Morning Star—Needs alterations in primary rooms to fit them for efficient work, and here also is found a need for provision for year-round instruction in health and education.

The report concluded with the statement: "The committee does not attempt to set a cost figure on the improvements, however, judging from the estimate of similar work prepared by Mr. Gudger for Haywood County schools, it should cost in the neighborhood of a million dollars."
