Umstead Announces His ... Candidacy For Governor

Next Governor?

announced recently that he will be a candidate for Governor subject to the Democratic primary next spring. Umstead is 55 years

Sheriff Campbell

The Haywood County Ministerial Association held their annual Army Outpost on the Max Patch road. The ministers and their families enjoyed a bountiful chicken dinner with Major Cecil Brown as hostess. The Beer and Wine petitions

were all turned over to the Committee on Moral and Civic Welfare for their study and approval before handing them to the Haywood County Board of Elections.

A resolution was passed commending Sheriff Campbell for his of all the platinum metals are used good work in the county and he was urged to continue his work in ucts of nickel and copper refining

farm ine Durham County to the U. S. Senate in Washington, William B. Umstead, has announced himself a candidate for Governor of North Carolina.

Mr. Umstead, who is 55, has bad a long and varied career in state politics. He graduated from UNC in 1916, and taught school, at Kinston until entering the service as a Second Lieutenant in World War I. After serving overseas for about nine months, he was released in 1919 and entered law school at what is now Duke University;

His law practice and political career began at about the same time, His first job was that of Prosecuting Attorney of the Durham County Recorder's Court in 1922 Ten years later he had advanced to Congress where, after three terms, he retired voluntarily in

In 1944 he was elected Chairman of the State Democratic Executive Committee, and in 1946 he was appointed to fill out the unexpired term of Senator Josiah W. Bailey. Four years ago he ran a close race for the Senate seat, but was defeated by former Governor, J. Melville Broughton.

In his statement, Mr. Umstead expressed pride in the advancement of "our state". He added, that despite the grave problems today "there is no reason why North Carolina should not continue to be the leading southern state and advance to an even higher position among the states of the Union."

He purposely made his announcement brief, but promised that "at the proper time," he would present his platform.

Mr. Umstead is married and has one child, a daughter nine years

Nickel continues to be an important producer of platinum metals, supplying world markets with platinum, palladium, rhodium, ruthenium and iridum. These precious metals are recovered as by-prodoperations.

MAYBE you've noticed that dollars don't seem to talk as loud as they used to in a lot of places.

But you ought to hear what they say about this Buick.

They say - here's the big thrill big mileage - big power of a valvein-head Fireball Engine - eightcylinder performance at the price you'll pay for most sixes.

They say-here are size and room and comfort that are hard to match at anywhere near the price tag this Buick Special is wearing.

They say - here are such things as an oil filter, air cleaner, vacuum booster, built-in summer ventilation - not as "extras" but yours at no extra charge.

They say that "smart buy's Buick" -by a wide measure.

But a smart buyer will also let this dashing darling speak for itself.

He'll take the wheel and feel how it snugs to the road on turns-holds its course on the highway with bigcar assurance.

He'll touch off the power of its

Fireball Engine and get firsthand the lift of its nimble response.

And he'll find out how coil springs on every wheel level out what he thought were bumpy roads.

Want to know more? How about coming in first thing tomorrow? Equipment, accessories, trim and models are subject to change without notice.
